VALUATION AND SETTLEMENT SCHEDULE FOR NOTES AND CERTIFICATES

- (i) The following sub-paragraph shall apply to Securities linked to one Underlying.

If a Specified Valuation Date is not a Scheduled Trading Day for the Underlying, then the Valuation Date shall be the first succeeding day immediately following such Specified Valuation Date which is a Scheduled Trading Day for the Underlying, unless in the opinion of the Calculation Agent such day is a Disrupted Day for the Underlying, in which case Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) below or Valuation and Settlement Condition 2(f) (*Adjustment to Valuation Dates (Disrupted Days and Underlying Levels)*) below and/or Valuation and Settlement Condition 2(g) (*Averaging Dates*) below (as applicable) shall apply or, as the case may be, the provisions relating to adjustment to Valuation Dates for Disrupted Days set out in the Underlying Schedules applicable to the relevant Underlying(s), shall apply.

- (ii) The following sub-paragraph shall apply to Securities linked to more than one Underlying if "Move In Block" is specified in the applicable Issue Terms.

If a Specified Valuation Date is not a Scheduled Trading Day for any Underlying, then the Valuation Date shall be the first succeeding day immediately following such Specified Valuation Date which is a Scheduled Trading Day for all of the Underlyings, unless in the opinion of the Calculation Agent such day is a Disrupted Day for any of the Underlyings, in which case Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) below or Valuation and Settlement Condition 2(f) (*Adjustment to Valuation Dates (Disrupted Days and Underlying Levels)*) below and/or Valuation and Settlement Condition 2(g) (*Averaging Dates*) below (as applicable) shall apply or, as the case may be, the provisions relating to adjustment to Valuation Dates for Disrupted Days set out in the Underlying Schedules applicable to the relevant Underlying(s), shall apply.

- (iii) The following sub-paragraph shall apply to Securities linked to more than one Underlying if "Value What You Can" is specified in the applicable Issue Terms.

If a Specified Valuation Date is not a Scheduled Trading Day for any Underlying, then:

- (A) the Valuation Date for each Underlying for which such Specified Valuation Date is a Scheduled Trading Day shall be such Specified Valuation Date, unless in the opinion of the Calculation Agent such day is a Disrupted Day for such Underlying, in which case Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) below or Valuation and Settlement Condition 2(f) (*Adjustment to Valuation Dates (Disrupted Days and Underlying Levels)*) below and/or Valuation and Settlement Condition 2(g) (*Averaging Dates*) below (as applicable) shall apply or, as the case may be, the provisions relating to adjustment to Valuation Dates for Disrupted Days set out in the Underlying Schedules applicable to the relevant Underlying(s), shall apply; and

(d) *Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*

Subject as provided in the Underlying Schedules applicable to the relevant Underlying(s) and subject as provided in Valuation and Settlement Condition 2(g) (*Averaging Dates*) below, any Specified Valuation Date(s) (if applicable, as adjusted in accordance with the provisions of Condition 2(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) above and/or, as the case may be, the provisions of the Underlying Schedules applicable to the relevant Underlying(s)) shall be adjusted in accordance with the following provisions:

- (i) The following sub-paragraph shall apply to Securities linked to one Underlying, subject as provided in Valuation and Settlement Condition 2(d)(iv) below.

If such Specified Valuation Date for such Underlying is a Disrupted Day for such Underlying, then the Valuation Date shall be the earlier of: (I) the first succeeding Valid Date immediately following such Specified Valuation Date; and (II) the Scheduled Trading Day which is the Valuation Roll number of Scheduled Trading Days immediately following such Specified Valuation Date.

- (ii) The following sub-paragraph shall apply to Securities linked to more than one Underlying if "Move In Block" is specified in the applicable Issue Terms, subject as provided in Valuation and Settlement Condition 2(d)(iv) below.

If such Specified Valuation Date is a Disrupted Day for any Underlying, then such Valuation Date shall be the earlier of: (I) the first succeeding Valid Date immediately following such Specified Valuation Date; and (II) the Scheduled Trading Day for all the Underlyings which is the Valuation Roll number of Scheduled Trading Days for all the Underlyings immediately following such Specified Valuation Date.

- (iii) The following sub-paragraph shall apply to Securities linked to more than one Underlying if "Value What You Can" is specified in the applicable Issue Terms, subject as provided in Valuation and Settlement Condition 2(d)(iv) below.

If such Specified Valuation Date is a Disrupted Day for any Underlying, then:

- (A) if such Specified Valuation Date is not a Disrupted Day for an Underlying, then the Valuation Date for such Underlying shall be such Specified Valuation Date; and
- (B) if such Specified Valuation Date is a Disrupted Day for an Underlying, then the Valuation Date for such Underlying shall be the earlier of: (1) the first succeeding Valid Date immediately following such Specified Valuation Date; and (2) the Scheduled Trading Day which is the Valuation Roll number of Scheduled Trading Days for such Underlying immediately following such Specified Valuation Date.

(iv) If the Valuation Date for any Underlying determined as provided above would otherwise fall on a day falling after the second Scheduled Trading Day (the "**Cut-off Valuation Date**") for such Underlying prior to the date on which a relevant payment or delivery, as applicable, is scheduled to be made under the Securities, such Valuation Date shall be deemed to be the Cut-off Valuation Date (notwithstanding that such date is a Disrupted Day for such Underlying) and the provisions of Valuation and Settlement Condition 2(e)(ii) below shall apply in respect thereof.

(e) *Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*

(i) If the Valuation Date for any Underlying (as determined in accordance with Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) above) is a Disrupted Day for such Underlying, then (unless otherwise specified in the Underlying Schedule applicable to such Underlying) the Calculation Agent shall determine the Underlying Closing Level of such Underlying on such Valuation Date using its good faith estimate of the Underlying Closing Level of such Underlying at the Valuation Time (where relevant) on or for such day.

(ii) If the Valuation Date for any Underlying (as determined in accordance with Condition 2(d)(iv) above) is determined to occur on the Cut-off Valuation Date for such Underlying, then (unless otherwise specified in the Underlying Schedule applicable to such Underlying) the Calculation Agent shall determine the Underlying Closing Level of such Underlying on such Cut-off Valuation Date using its good faith estimate of the Underlying Closing Level of such Underlying at the Valuation Time (where relevant) on or for such day.

(f) *Adjustment to Valuation Dates (Disrupted Days and Underlying Levels)*

If the Calculation Agent determines that the Underlying Level of an Underlying cannot be determined at any time on any Valuation Date by reason of the occurrence of an event giving rise to a Disrupted Day, then the Underlying Level at such time on such day shall be disregarded for the purposes of determining any amounts payable and/or deliverable in respect of the Securities.

(g) *Averaging Dates*

Where "Averaging" is specified to apply in the applicable Issue Terms in respect of any Valuation Dates, the applicable Issue Terms will specify whether "Postponement", "Modified Postponement" or "Omission" will apply in respect of each such Valuation Date or, if no such election is specified, "Postponement" shall apply.

Notwithstanding the provisions of Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*), where "Omission" applies in respect of any Valuation Date to which "Averaging" applies, if a Specified Valuation Date is a Disrupted Day for any Underlying, then such Specified Valuation Date shall be deemed not to be a Valuation Date PROVIDED THAT, if by operation of this provision there would be no Valuation Date in respect of the relevant determination, then the provisions of Valuation and Settlement Condition 2(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) will apply for the purposes of determining the relevant Underlying Closing Level(s) on the final relevant Valuation Date as if such Valuation Date were a Valuation Date that was a Disrupted Day.

(h) *Adjustment Events*

If in the determination of the Calculation Agent any Adjustment Event occurs, then (subject to the provisions of the Underlying Schedule applicable to such Underlying) the Calculation Agent shall (i) make such adjustment to the terms of the Securities as

the Calculation Agent determines necessary or appropriate to account for the effect of such Adjustment Event subject to the provisions (if any) of such Underlying Schedule and (ii) determine the effective date of each such adjustment.

Any adjustment pursuant to the above may include a "monetisation" of the Securities. Where the Securities are monetised, (i) the Calculation Agent will determine the value in the Settlement Currency (the "**Monetised Amount**") of the bond component and the embedded derivative(s) comprising the Securities on a date selected by the Calculation Agent (the "**Monetisation Valuation Date**"), (ii) any future amounts in respect of interest (if any) and the Final Redemption Amount will no longer be payable and (iii) the Securities will instead pay on the Maturity Date an amount equal to (a) the Monetised Amount plus (b) interest accrued on such amount at the overnight rate relating to the Settlement Currency (being, in the case of Dual Currency Securities, the Denomination Currency) selected by the Calculation Agent which shall accrue during the period from (and including) the Monetisation Valuation Date to (but excluding) the Maturity Date.

If an "Increased Cost of Hedging" is specified to apply in the applicable Issue Terms and occurs, the Calculation Agent may make such adjustment to the terms of the Securities as it determines necessary or appropriate to pass on to Securityholders the relevant increased cost of hedging, which adjustment may include, but is not limited to, reducing any of the amounts which would otherwise be payable under the Securities or reducing the number of any Relevant Assets which would otherwise be deliverable under the Securities.

If so specified in the relevant Underlying Schedule and subject as otherwise provided in the Conditions, any adjustment(s) made by the Calculation Agent in response to an Adjustment Event may include a substitution of the relevant Underlying or other asset as specified in the Underlying Schedule applicable to the relevant Underlying and the Calculation Agent may make such other adjustments to the terms of the Securities as it deems necessary or appropriate in relation to such substitution.

(i) *Early Termination Events*

If, in the determination of the Calculation Agent, any Early Termination Event occurs in respect of an Underlying or the Securities (as relevant), then (i) in the case of an Additional Early Termination Event pursuant to paragraph (i) of the definition of such term (subject to the provisions of the Underlying Schedule applicable to such Underlying) all (but not some only) of the Securities will or (ii) in the case of a Hedging Disruption Early Termination Event or a Section 871(m) Event, all (but not some only) of the Securities may, be redeemed on a day selected by the Issuer, each Security being redeemed by payment of an amount equal to the Early Termination Amount on the Early Termination Date.

(j) *Realisation Disruption*

If "Realisation Disruption" is specified as applicable in the applicable Issue Terms and a Realisation Disruption Event occurs, then the Issuer may either (i) direct the Calculation Agent to make such consequential adjustments to any of the terms of the Securities (including any payment or delivery obligations) as it determines appropriate in order to reflect the economic effect of the particular Realisation Disruption Event or (ii) redeem all (but not some only) of the Securities on a day selected by the Issuer, each Security being redeemed by payment of an amount equal to the Early Termination Amount.

Any such adjustments by the Calculation Agent may include (but are not limited to) (I) payments under the Securities being made in the currency (the "**Local Currency**") in which the Hedging Positions are denominated or payable rather than the Settlement Currency, (II) deduction of an amount equal to the applicable tax, charge or deduction from the relevant payment otherwise due under the relevant Securities or delivery of any Entitlement being subject to payment by the relevant Securityholder of an amount

equal to a *pro rata* portion of any such tax, charge or deduction resulting in reduced amounts paid or delivered in respect of the Securities, (III) non-payment of the relevant payment or non-delivery of the relevant Entitlement otherwise due under the relevant Securities until the relevant restrictions (including but not limited to all exchange and/or conversion and/or cross-border transfer restrictions) are lifted and/or (IV) determination of any relevant exchange rate by the Calculation Agent taking into consideration all available information that it deems relevant, which may result in a different rate to that which would have applied had the Realisation Disruption not occurred, and/or (V) (where legally permissible) *in lieu* of paying any cash amounts in respect of the Securities, procuring physical delivery of any Underlying(s), delivered in such manner as shall be notified to the Securityholders by the Issuer (or *vice versa*) PROVIDED THAT such Underlying(s) may be subject to transfer restrictions and additional certifications may be required from the Securityholders. Any such adjustments will be effective as of the date determined by the Calculation Agent.

(k) *Correction of published or announced prices or levels*

In the event that any level, price, rate or value (as applicable) of an Underlying for any time on any day which is published or announced by or on behalf of the person or entity responsible for such publication or announcement and which is used for any calculation or determination made in respect of the Securities is subsequently corrected, and the correction (the "**Corrected Level**") is published by or on behalf of such person or entity within the relevant Correction Period after the original publication (and at least two Business Days prior to the relevant date on which a payment or delivery is scheduled to be made under the Securities) (the "**Relevant Scheduled Payment Date**"), then such Corrected Level shall be deemed to be the level, price, rate or value for the relevant Underlying for the relevant time on the relevant day and the Calculation Agent shall use such Corrected Level in determining any amounts payable and/or deliverable in respect of the Securities.

Corrections published after the day which is two Business Days prior to the Relevant Scheduled Payment Date shall be disregarded by the Calculation Agent for the purposes of determining any such amounts payable and/or deliverable under the Securities.

(l) *Notifications*

The Calculation Agent shall notify the Issuer and each Paying Agent of any determination made by it in accordance with this Condition 2 and the action that it proposes to take in respect of any such determination. The Issuer shall notify the Securityholders thereof as soon as reasonably practicable thereafter in accordance with General Condition 15 (*Notices*). Failure by the Calculation Agent to notify the Issuer or any Paying Agent or failure by the Issuer to notify the Securityholders of any such determination will not affect the validity of any such determination.

Where more than one Electronic Page is specified in respect of an Underlying and/or (if applicable) any component of such Underlying (however described in the relevant Underlying Schedule), then the provisions of the preceding sentence shall be construed accordingly and (i) if there is any discrepancy between any relevant price or level displayed on the relevant Electronic Pages for any Valuation Date, the relevant price or level selected by the Calculation Agent shall be used for such Valuation Date; and (ii) if any relevant price or level is not published on all of such Electronic Pages but is published on one or more of such Electronic Pages, the Calculation Agent shall use such published price or level for the purpose of determining any calculation or determination in respect of the Securities and no Disrupted Day shall be deemed to have occurred in respect of the failure to publish on the other Electronic Page(s).

- (b) the Issuer may (if so specified in the applicable Issue Terms and at its option) redeem the Securities on a day selected by the Issuer, in which case each Security shall be redeemed by payment of an amount equal to the Early Termination Amount.

PROVIDED THAT the Relevant Agent has fully determined any adjustment(s) as provided above to the terms of the Securities, the Relevant Agent shall notify the Issuer of such determination made by it and the action that it proposes to take in respect of any such determination as soon as reasonably practicable and in any event prior to the earliest relevant effective date. The Issuer shall notify the Securityholders thereof or of any election to redeem the Securities as soon as reasonably practicable thereafter in accordance with General Condition 15 (*Notices*). Failure by the Relevant Agent to notify the Issuer or failure by the Issuer to notify the Securityholders of any such determination or election will not affect the validity of any such determination or election.

For the purposes of the above:

"**Administrator/Benchmark Event**" means the Relevant Agent determines that (1) a Benchmark Modification or Cessation Event has occurred or will occur, or (2) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the Issuer or the Relevant Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Benchmark to perform its or their respective obligations under the Securities, or (3) save where the applicable Issue Terms specify that "Administrator/Benchmark Event (Limb (3))" is not applicable, it is not commercially reasonable to continue the use of the relevant Benchmark in connection with the Securities as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Relevant Agent or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the Securities and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence), or (4) there has been an official announcement by the supervisor of the administrator and/or sponsor of a relevant Benchmark that the relevant Benchmark is no longer representative, or as of a specified future date will no longer be capable of being representative, of any relevant underlying market(s) or economic reality that such Benchmark is intended to measure.

#### 4. Provisions relating to Interest

##### 4.1 Interest on Fixed Rate Securities

Where the applicable Issue Terms specify the Fixed Rate Securities Provisions to be applicable to the Securities or are otherwise deemed to apply as provided under the terms of this Valuation and Settlement Schedule ("**Fixed Rate Securities**"), the definitions and provisions set out in this Valuation and Settlement Condition 4.1 (the "**Fixed Rate Securities Provisions**") shall apply.

(a) *Accrual not applicable to Fixed Rate Securities*

If the Securities are expressed to be Fixed Rate Securities in the applicable Issue Terms and Accrual is specified as "Not Applicable" in the Issue Terms, in respect of each Interest Payment Date to which the Fixed Rate Provisions apply (as specified in the applicable Issue Terms), where interest is due in accordance with this Valuation and Settlement Schedule and the applicable Issue Terms and subject as otherwise provided in the Valuation and Settlement Conditions, the Issuer will pay the Interest Amount specified for the relevant Interest Payment Date in the Settlement Currency. For which purpose, the "**Interest Amount**" will be (i) the amount specified in the applicable Issue Terms or (ii) where different amounts are specified in relation to different Interest Payment Dates, in respect of each Interest Payment Date, the amount specified in respect of such Interest Payment Date.

The Interest Amount payable in respect of an Interest Payment Date shall be subject to Valuation and Settlement Condition 1.3 (*Interest Amount due in respect of the Securities if Interest Barrier Event is specified to apply*) if an Interest Barrier Event is specified to apply in the applicable Issue Terms in respect of such Interest Payment Date.

(b) *Accrual applicable to Fixed Rate Securities*

If the Securities are Notes and are expressed to be Fixed Rate Securities in the applicable Issue Terms and Accrual is specified to be "Applicable" in the Issue Terms, then each such Fixed Rate Security bears interest from (and including) the relevant Interest Commencement Date at the rate(s) per annum equal to the Fixed Interest Rate(s) (each such rate being an "**Interest Rate**"). Subject as otherwise provided in these Valuation and Settlement Conditions, the relevant interest Amount will be payable in arrear on each Interest Payment Date to which the Fixed Rate Securities Provisions apply, as specified in the applicable Issue Terms. In respect of an Interest Period ending on (but excluding) an Interest Period End Date (an "**Ending Interest Period End Date**"), such interest will be payable on the Interest Payment Date falling on or about such Ending Interest Period End Date.

The amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Date falling on or about such date will amount to the Interest Amount.

If an Interest Rate or a Reference Rate for any period or any relevant day is specified in any other Valuation and Settlement Condition or in the applicable Issue Terms to be a "Fixed Interest Rate", the relevant Interest Rate or Reference Rate will be determined in accordance with this Valuation and Settlement Condition 4.1(b).

(i) *Fixed Interest Rate*

The "**Fixed Interest Rate**" in respect of each Interest Period shall be equal to the Specified Fixed Rate, plus or minus (as specified in the applicable Issue Terms) the Margin (if any is specified in the applicable Issue Terms in relation to such Specified Fixed Rate for such Interest Period), and further multiplied by the Interest Participation Rate ("**IPR**") (if any is specified in the applicable Issue Terms in relation to such Specified Fixed Rate for such Interest Period).

(ii) *Calculation of Interest Amount*

Interest shall be calculated in respect of any period by applying the relevant Interest Rate to:

- (A) in the case of Fixed Rate Securities which are represented by a Global Security, the aggregate outstanding principal amount or number of the Fixed Rate Securities represented by such Global Security; or
- (B) in the case of Fixed Rate Securities in definitive form, the Calculation Amount,

and, in each case, (I) multiplying such product by the applicable Day Count Fraction, and (II) (a) in respect of Range Accrual Securities, multiplying the product calculated in (I) by the Accrual Rate (as described in the definition of Interest Amount in Valuation and Settlement Condition 1 (*Interest and Redemption Provisions*)) or (b) where Valuation and Settlement Condition 4.7 (*Range Accrual (Expanded) Securities*) applies, multiplying the product calculated in (I) by the Accrual Interest Rate, and rounding the resultant figure to the nearest sub-unit of the relevant Settlement Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Security is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Fixed Rate Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

The Interest Amount payable in respect of an Interest Payment Date shall be subject to Valuation and Settlement Condition 1.3 (*Interest Amount due in respect of the Securities if Interest Barrier Event is specified to apply*) if an Interest Barrier Event is specified to apply in the applicable Issue Terms in respect of such Interest Payment Date.

- (c) If the Securities are Certificates and are expressed to be Fixed Rate Securities in the applicable Issue Terms and Accrual is specified to be "Applicable" in the Issue Terms, then each such Fixed Rate Security bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Interest Rate(s). Subject as otherwise provided in these Valuation and Settlement Conditions, the relevant Interest Amount will be payable in arrear on the Interest Payment Date(s) specified in the applicable Issue Terms. In respect of an Interest Period ending on (but excluding) an Ending Interest Period End Date, such interest will be payable on the Interest Payment Date falling on or about such Ending Interest Period End Date.

The amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Date falling on or about such date will amount to the Interest Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Issue Terms, amount to the Broken Amount so specified.

Except where an applicable Interest Amount or Broken Amount is specified in the applicable Issue Terms in respect of an Interest Payment Date and the related Interest Period, interest shall be calculated in respect of any period by multiplying the relevant Interest Rate by:

- (i) in the case of Fixed Rate Securities which are represented by a Global Security, the aggregate of the Calculation Amounts in respect of the total number of Securities represented by such Global Security; or
- (ii) in the case of Fixed Rate Securities in definitive form, the Calculation Amount,

and, in each case, (I) multiplying such amount by the applicable Day Count Fraction, and (II) (a) in respect of Range Accrual Securities, multiplying the product calculated in (I) by the Accrual Rate (as described in the definition of Interest Amount in Valuation and Settlement Condition 1 (*Interest and Redemption Provisions*)) or (b) where Valuation and Settlement Condition 4.7 (*Range Accrual (Expanded) Securities*) applies, multiplying the product calculated in (I) by the Accrual Interest Rate, and rounding the resultant figure to the nearest sub-unit of the relevant Settlement Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

The Interest Amount or Broken Amount payable in respect of an Interest Payment Date shall be subject to Valuation and Settlement Condition 1.3 (*Interest Amount due in respect of the Securities if Interest Barrier Event is specified to apply*) if an Interest Barrier Event is specified to apply in the applicable Issue Terms in respect of such Interest Payment Date.

#### 4.2 Interest on Floating Rate Securities

Where the applicable Issue Terms specify the Floating Rate Securities Provisions to be applicable to the Securities or are otherwise deemed to apply as provided under the terms of this Valuation and Settlement Schedule ("**Floating Rate Securities**"), the definitions and provisions set out in this Valuation and Settlement Schedule 4.2 (the "**Floating Rate Securities Provisions**") shall apply.

Each Floating Rate Security which is a Note bears interest from (and including) the relevant Interest Commencement Date and, where interest is due in accordance with this Valuation and Settlement Schedule and the applicable Issue Terms and subject as otherwise provided in the Valuation and Settlement Conditions, the relevant Interest Amount determined in accordance with Valuation and Settlement Condition 4.5 (*General provisions relating to interest*) will be payable in arrear on each Interest Payment Date to which the Floating Rate Securities Provisions apply. In respect of an Interest Period ending on (but excluding) an Ending Interest Period End Date, such interest will be payable on the Interest Payment Date falling on or about such Ending Interest Period End Date.

In respect of each Floating Rate Security which is a Certificate, interest shall be calculated in accordance with this Valuation and Settlement Schedule and the applicable Issue Terms and payable on each Interest Payment Date(s) to which the Floating Rate Securities Provisions apply. Subject as otherwise provided in these Valuation and Settlement Conditions, the relevant Interest Amount will be payable on each Interest Payment Date to which the Floating Rate Securities Provisions apply. In respect of the Interest Period ending on (but excluding) and Ending Interest Period End Date, such Interest Amount will be payable on the Interest Payment Date falling on or about such Interest Period End Date (or as otherwise specified in the applicable Issue Terms).

The interest (if any) payable in respect of an Interest Payment Date shall be subject to Valuation and Settlement Condition 1.3 (*Interest Amount due in respect of the Securities if Interest Barrier Event is specified to apply*) if an Interest Barrier Event is specified to apply in the applicable Issue Terms in respect of such Interest Payment Date.

If an Interest Rate or a Reference Rate for any period or any relevant day is specified in any other Valuation and Settlement Condition or in the applicable Issue Terms to be a **Floating "Interest Rate"**, the relevant Interest Rate or Reference Rate will be determined in accordance with the provisions set out in Valuation and Settlement Conditions 4.2(a) to 4.2(h), as applicable.

A different Floating Interest Rate may apply in respect of different Interest Periods and/or Interest Payment Dates, as specified in the applicable Issue Terms.

(a) *Screen Rate Determination*

Where Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Interest Rate is to be determined, the Floating Interest Rate for the relevant Interest Period or a relevant day (such day, a "**Relevant Day**") will be the Screen Rate for such Interest Period or Relevant Day, plus or minus (as indicated in the applicable Issue Terms) the Margin (if any is specified in the applicable Issue Terms in relation to such Screen Rate, and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such Screen Rate).

For the purposes of this Valuation and Settlement Condition 4.2(a), the "**Screen Rate**" for any Interest Period or any Relevant Day will, subject as provided below, be:

- (i) the offered quotation; or
- (ii) the arithmetic mean of the offered quotations; or
- (iii) the rate provided by the relevant administrator,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Page as at the Specified Time on the Interest Determination Date in respect of such Interest Period or such Relevant Day, all as determined by the Relevant Agent. If five or more offered quotations are available on the Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Relevant Agent for the purpose of determining the arithmetic mean (rounded as provided below) of such offered quotations.

Subject as provided in Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*), if the Page is not available or if, in the case of (i), no offered quotation appears or, in the case of (ii), fewer than three offered quotations appear or, in the case of (iii) the Reference Rate does not appear on the Page and/or the Reference Rate is not provided or published by the relevant administrator and/or a relevant authorised distributor or a component of the Reference Rate is not provided or published, in each case as at the Specified Time, or by 10.30 a.m. Sydney time in the case of BBSW, the Screen Rate shall be determined by the Relevant Agent in good faith and in a commercially reasonable manner having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market) (the "**SRD Fallback Provisions**"). For the avoidance of doubt and without limitation, the Relevant Agent may determine the relevant Screen Rate by reference to one of the following:

- (A) the Reference Rate for the relevant designated maturity (where applicable) published on the relevant Interest Determination Date on a different screen page by another authorised distributor of the relevant rate;
- (B) a rate formally recommended for use by the administrator of the Reference Rate or the supervisor or competent authority (or a committee endorsed or convened by any such entity) responsible for supervising the Reference Rate or the administrator thereof; or

- (C) the Reference Rate for the relevant designated maturity (where applicable) last provided or published by the relevant administrator; or
- (D) the arithmetic mean of quotations provided by reference banks selected by the Relevant Agent on a date determined by the Relevant Agent for a representative amount (and, where relevant, with an acknowledged dealer of good credit in the swap market) and, if applicable, for a term equal to the designated maturity, calculated in the manner determined by the Relevant Agent.

In the event that the administrator of a relevant Reference Rate amends the methodology of such Reference Rate (including, without limitation, amendments to the time of publication of the relevant rate), the Relevant Agent may but shall not be required to make any related or consequential changes to the Conditions not otherwise provided for in this Valuation and Settlement Condition 4.2(a) (including, without limitation, any technical, administrative or operational changes, changes to timing and frequency of determining rates and making payments of interest and changes to the definition of Designated Maturity (where applicable)) that the Relevant Agent determines to be appropriate in a manner substantially consistent with market practice (or, if the Relevant Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Relevant Agent determines that no appropriate market practice exists, in such other manner as the Relevant Agent determines is reasonably necessary).

In the event that the Screen Rate is subsequently corrected, and the correction (the "**Corrected Rate**") is published after the original publication but no later than the longer of (a) one hour after such original publication and (b) any other period for corrections specified by a relevant administrator in its methodology for the relevant Reference Rate, then PROVIDED THAT such Corrected Rate is published on or prior to the date falling two Business Days prior to the date on which a related payment is scheduled to be made under the Securities (the "**Relevant Scheduled Payment Date**")), then such Corrected Rate shall be deemed to be the relevant Screen Rate and the Relevant Agent shall use such Corrected Rate in determining any relevant amount payable in respect of the Securities. Any corrections published after the second Business Day prior to the Relevant Scheduled Payment Date shall be disregarded for the purposes of determining the relevant Screen Rate.

If a Reference Rate to which Screen Rate Determination applies is specified in the applicable Issue Terms as being other than EURIBOR, STIBOR, NIBOR, CIBOR, ROBOR, TIBOR, HIBOR, BBSW or BKBM, the Screen Rate (and any relevant Reference Rate) in respect of such Securities alternative provisions may be specified in the applicable Pricing Supplement.

If the Screen Rate is determined by the Determination Agent as provided above, the Determination Agent shall notify the Calculation Agent and the Issuer of any such Screen Rate so determined as soon as reasonably practicable, but in any event, prior to the date on which any relevant amount is to be determined.

The Relevant Agent shall not be responsible to the Issuer, the CGMHI Guarantor or the CGMFL Guarantor or to any third party as a result of the Relevant Agent having acted on any quotation given by any reference bank.

(b) *ISDA Determination*

(i) *ISDA Rate*

Subject as provided in Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*), where ISDA Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, the Floating Interest Rate for the relevant Interest Period or Relevant Day will be the relevant ISDA Rate plus or minus (as indicated in

the applicable Issue Terms) the Margin (if any is specified in the applicable Issue Terms in relation to such ISDA Rate) and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such ISDA Rate) PROVIDED THAT, if:

- (x) "Floored ISDA Rate" is specified as applicable in the applicable Issue Terms, then the Floating Interest Rate shall be equal to (I) the higher of (x) the ISDA Rate and (y) 0 per cent., (II) plus or minus (as indicated in the applicable Issue Terms) the Margin (if any is specified in the applicable Issue Terms in relation to such ISDA Rate) and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such ISDA Rate).
- (y) if "Floored Interest Amount" is specified as applicable in the applicable Issue Terms, then the Floating Interest Rate shall be equal to the higher of (I) the ISDA Rate, plus or minus (as indicated in the applicable Issue Terms) the relevant Margin (if applicable) and multiplied by the Interest Participation Rate (if applicable) and (II) 0 per cent.

For the purposes of this Valuation and Settlement Condition 4.2(b), "**ISDA Rate**" for any Interest Period means the rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction (a "**Swap Transaction**" or a "**Transaction**") if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions, as defined below) (the "**ISDA Calculation Agent**") for that swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option is as specified in the applicable Issue Terms;
- (ii) the Designated Maturity, if applicable, is a period specified in the applicable Issue Terms; and
- (iii) the relevant Reset Date is as specified in the applicable Issue Terms,

PROVIDED THAT

- (A) if the 2006 Definitions are specified in the applicable Issue Terms and the Calculation Agent determines that such ISDA Rate cannot be determined in accordance with the 2006 Definitions read with the above provisions and prior to the application of any provisions relating to an index cessation event (howsoever described) or other permanent cessation fallback provisions in the 2006 Definitions (including where applicable such fallbacks set out in any supplement to the 2006 Definitions and, for the avoidance of doubt, any Discontinued Rates Maturities provisions)) then, subject as provided in Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*) and notwithstanding anything to the contrary in the Conditions, the ISDA Rate for such Interest Period shall be such rate as is determined by the Relevant Agent in good faith and in a commercially reasonable manner having regard to alternative benchmarks then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market); or
- (B) if the 2021 Definitions are specified in the applicable Issue Terms and the Calculation Agent determines that such ISDA Rate cannot

be determined in accordance with the 2021 Definitions read with the above provisions but prior to the application of any provisions relating to permanent cessation or an Administrator/Benchmark Event in the 2021 Definitions (including, for the avoidance of doubt any Discontinued Rates Maturities provisions), then, subject as provided in Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*) and notwithstanding anything to the contrary in the Conditions, the ISDA Rate for such Interest Period shall be such rate as is determined by the Relevant Agent in good faith and in a commercially reasonable manner having regard to alternative benchmarks then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market).

For the purposes of this Valuation and Settlement Condition 4.2(b), terms used for the purpose of determining the relevant ISDA Rate under the relevant ISDA Definitions shall have the meanings given to those terms in the relevant ISDA Definitions, and the date on which any ISDA Rate is to be determined shall be an "**Interest Determination Date**".

References in the 2006 Definitions to:

- numbers, financial centres, elections or other items to be specified in the relevant Confirmation shall be deemed to be references to the numbers, financial centres, elections or other items specified for such purpose in the applicable Issue Terms;
- the "Effective Date" shall be to the relevant Interest Commencement Date;
- a "Period End Date" shall be deemed to be references to an Interest Period End Date;
- a "Floating Rate Day Count Fraction" shall be deemed to be references to the relevant Day Count Fraction;
- a "Payment Date" shall be deemed to be references to an Interest Payment Date; and
- the "Termination Date" shall be to the last occurring relevant Interest Payment Date.

References in the 2021 Definitions to:

- numbers, financial centres, elections or other items to be specified in the relevant Confirmation shall be deemed to be references to the numbers, financial centres, elections or other items specified for such purpose in the applicable Issue Terms;
- the "Effective Date" shall be to the relevant Interest Commencement Date;
- a "Period End Date" shall be deemed to be references to an Interest Period End Date, PROVIDED THAT where the Business Day Convention applicable to the relevant Interest Period End Date is "Floating Rate Convention", "Modified Following Business Day Convention" or "Preceding Business Day Convention" and "Period End Date/Termination Date adjustment for Unscheduled Holiday" is specified to be applicable in the applicable Issue Terms, where that Interest Period End Date would otherwise fall on a day that is not a

Business Day as a result of an Unscheduled Holiday, that date will instead fall on the first following day that is a Business Day;

- a "Floating Rate Day Count Fraction" shall be deemed to be references to the relevant Day Count Fraction;
- a "Payment Date" shall be deemed to be references to an Interest Payment Date, PROVIDED THAT where "Payment Date adjustment for Unscheduled Holiday" is specified as applicable in the applicable Issue Terms and the Business Day Convention applicable to the relevant Interest Period End Date is "Floating Rate Convention", "Modified Following Business Day Convention" or "Preceding Business Day Convention", where that Interest Payment Date would otherwise fall on a day that is not a Business Day as a result of an Unscheduled Holiday, that date will instead fall on the first following day that is a Business Day and, unless otherwise specified in the applicable Issue Terms, where any other payment date (a Related Payment Date) is scheduled to fall on the same day, that Related Payment Date shall also be adjusted accordingly, all subject as provided in General Condition 8; and
- the "Termination Date" shall be to the last occurring relevant Interest Payment Date.

Notwithstanding anything to the contrary in the ISDA Definitions:

- (a) the provisions of General Condition 12(c) (subject as provided in General Condition 12(d)) shall apply in relation to determinations made by the Relevant Agent pursuant to this Valuation and Settlement Condition 4.2(b) and any such provision in the relevant ISDA Definitions shall be disregarded. In addition, all calculations and determinations made in respect of the Securities by the Relevant Agent under the Conditions shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the CGMHI Guarantor, the CGMFL Guarantor and the Securityholders;
- (b) any requirement under the ISDA Definitions for the ISDA Calculation Agent: (i) to give notice of a determination made by it to any other party will be deemed to be a requirement for the Calculation Agent to provide an equivalent notice to the Issuer; and (ii) to consult with the other party or the parties will be deemed to be a requirement for the Relevant Agent to consult with the Issuer. Any such notice or consultation may be given or carried out orally or in writing (including by electronic mail or communications). In addition the right of any party under the ISDA Definitions to require the ISDA Calculation Agent to take any action or fulfil any responsibility will be deemed to be solely the right of the Issuer to require this of the Relevant Agent in its discretion and no Securityholder will have any right to require the Issuer to do this or to direct the Relevant Agent in this regard;
- (c) where the ISDA Definitions require agreement between the parties to the relevant transaction, the parties will be deemed to have been unable to reach agreement and the fallback applicable in such circumstances will be deemed to apply;
- (d) in the event that the Relevant Agent determines that any Fixing Day or other day on which an ISDA Rate is determined under the ISDA Definitions is less than two Business Days prior to the relevant date originally scheduled for payment, the Relevant Agent may determine that such date for payment and/or any Related Payment

Date be delayed to a date falling not more than two Business Days after the relevant Fixing Day or relevant other day and Securityholders shall not be entitled to further interest or any other payment in respect of any such delay; and

- (e) in respect of the 2021 Definitions only, in the event that the Correction Time Period applicable to an ISDA Rate ends later than two Business Days prior to the relevant date for payment, any corrections published after the second Business Day prior to the relevant date for payment shall be disregarded for the purposes of determining the relevant ISDA Rate.

If any adjustment, fallback, modification, correction or replacement of a relevant rate applies pursuant to the ISDA Definitions or the interest rate swap transaction thereunder then, in relation thereto, the Relevant Agent may but shall not be required to (i) if it would not otherwise apply in relation to the determination of the ISDA Rate in accordance with the above provisions, take into account any such any adjustment, fallback, modification, correction or replacement (including by reference to the hedging arrangements for the relevant Securities) in determining of the relevant ISDA Rate and (ii) make any related or consequential changes to the Conditions not otherwise provided for in this Condition (including without limitation any technical, administrative or operational changes, changes to the definition of Interest Period, timing and frequency of determining rates and making payments of interest and changes to the definition of Designated Maturity (where applicable)) that the Relevant Agent determines to be appropriate in a manner substantially consistent with market practice (or, if the Relevant Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Relevant Agent determines that no appropriate market practice exists, in such other manner as the Relevant Agent determines is reasonably necessary).

For the purposes of this Valuation and Settlement Condition 4.2(b), "**ISDA Definitions**" means (i) if "2006 ISDA Definitions" is specified in the applicable Issue Terms, the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto ("**ISDA**"), as amended or supplemented as at the Issue Date of the first Tranche of the Securities (the "**2006 Definitions**"), or (ii) if "2021 ISDA Definitions" is specified in the applicable Issue Terms, the latest version of the 2021 ISDA Interest Rate Derivatives Definitions, including the latest version of the 2021 ISDA Interest Rate Derivatives Definitions Floating Rate Matrix, in each case, published by ISDA as at the Issue Date of the first Tranche of the Securities (the "**2021 Definitions**"), provided in each case that if the Relevant Agent determines this is appropriate by reference to the hedging arrangements for the relevant series of Securities, ISDA Definitions will mean any successor definitional booklet to or version of the 2006 Definitions or 2021 Definitions as applicable, each as supplemented or amended from time to time for interest rate derivatives, all as determined as of the date of the relevant determination under this Condition and the Relevant Agent may make such conforming changes to the Conditions as are necessary or appropriate to reflect the terms of the relevant successor definitional booklet or version.

- (ii) *Linear Interpolation*

The provisions relating to "Linear Interpolation" set out in the ISDA Definitions shall apply to an ISDA Rate where "ISDA Definitions Linear Interpolation" is specified as applicable in the applicable Issue Terms. If such provisions apply, the provisions of Valuation and Settlement Condition 4.5(f) (*Linear Interpolation*) shall not apply to the relevant ISDA Rate.

(c) *SONIA Floating Rate Determination*

(i) *Compounded Daily SONIA – Non-Index Determination*

Where SONIA Floating Rate Determination is specified in the applicable Issue Terms as the manner in which a Floating Interest Rate is to be determined, the Interest Rate for the relevant Interest Period will, subject as provided below and save where Index Determination applies, be the Compounded Daily SONIA (the "**SONIA Floating Rate**") as determined on the relevant Interest Determination Date plus or minus (if any is specified in the applicable Issue Terms in relation to such SONIA Floating Rate)) the Margin (if any) and multiplied the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such SONIA Floating Rate).

For the purposes of this Valuation and Settlement Condition 4.2(c)(i), "**Compounded Daily SONIA**" means, in respect of an Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) calculated by the Calculation Agent in respect of the relevant Interest Determination Date as follows (and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards, or otherwise in accordance with applicable market convention in the derivatives market):

- (i) where "Compounded Daily SONIA (Shift)" is specified as applicable in the applicable Issue Terms, as follows:

$$\left[ \prod_{i=1}^{d_0} \left( 1 + \text{SONIA}_i \times \frac{n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

- (ii) where "Compounded Daily SONIA (Lag)" is specified as applicable in the applicable Issue Terms, as follows:

$$\left[ \prod_{i=1}^{d_0} \left( 1 + \text{SONIA}_{i-5\text{LBD}} \times \frac{n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

In each case, for the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA rate in respect of any London Banking Day. The SONIA rate applied to a day that is not a London Banking Day will be taken by applying the SONIA rate for the previous London Banking Day but without compounding.

For the purposes of the above definition, the following terms have the following meanings:

"**d**" means:

- (i) where "Compounded Daily SONIA (Shift)" is specified as applicable in the applicable Issue Terms, the number of calendar days in the relevant Observation Period; and
- (ii) where "Compounded Daily SONIA (Lag)" is specified as applicable in the applicable Issue Terms, the number of calendar days in the relevant Interest Period.

"**d<sub>0</sub>**" means:

VALUATION AND SETTLEMENT SCHEDULE FOR NOTES AND CERTIFICATES

- (i) where "Compounded Daily SONIA (Shift)" is specified as applicable in the applicable Issue Terms, the number of London Banking Days in the relevant Observation Period; and
- (ii) where "Compounded Daily SONIA (Lag)" is specified as applicable in the applicable Issue Terms, the number of London Banking Days in the relevant Interest Period.

"i" means a series of whole numbers from one to  $d_0$ , each representing the relevant London Banking Day in chronological order:

- (i) where "Compounded Daily SONIA (Shift)" is specified as applicable in the applicable Issue Terms, from, and including, the first London Banking Day in the relevant Observation Period to, and including, the last London Banking Day in such Observation Period; and
- (ii) where "Compounded Daily SONIA (Lag)" is specified as applicable in the applicable Issue Terms, from, and including, the first London Banking Day in the relevant Interest Period to, and including, the last London Banking Day in such Interest Period.

" $n_i$ " for any London Banking Day "i", means the number of calendar days from, and including, such London Banking Day "i" up to, but excluding, the following London Banking Day.

"**Observation Period**" means, in respect of an Interest Period, the period from, and including, the date falling five London Banking Days prior to the first day of such Interest Period and ending on, but excluding, the date falling five London Banking Days prior to the Interest Period End Date for such Interest Period (or the date falling five London Banking Days prior to such earlier date, if any, on which the Securities become due and payable).

"**SONIA<sub>i</sub>**" means, in respect of any London Banking Day "i", in the relevant Observation Period and subject as provided in Valuation and Settlement Condition 4.2(g) (*Corrections in respect of compounded rates and indices*), a reference rate equal to the daily Sterling Overnight Index Average (SONIA) rate (the "**SONIA rate**") for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the relevant Page or, if such Page is unavailable, as otherwise published by such authorised distributors (on the London Banking Day immediately following such London Banking Day).

"**SONIA<sub>i-SLBD</sub>**" in respect of any London Banking Day "i", in the relevant Interest Period, means a reference rate equal to the SONIA rate for the London Banking Day falling five London Banking Days prior to such London Banking Day "i" as provided by the administrator of SONIA to authorised distributors and as then published on the relevant Page or, if such Page is unavailable, as otherwise published by such authorised distributors (on the London Banking Day immediately following the London Banking Day falling five London Banking Days prior to such London Banking Day "i").

$\prod_{i=1}^n$  means the product of the relevant factors up to the amount of  $n$ . For example,

$$\left[ \prod_{i=1}^{30} \left( 1 + \frac{X_i}{365} \right) - 1 \right]$$

means  $[(1 + X_1 / 365) - 1] \times [(1 + X_2 / 365) - 1] \times \dots \times [(1 + X_{30} / 365) - 1]$ .

- (ii) *Compounded Daily SONIA – Index Determination*

Where SONIA Floating Rate Determination is specified in the applicable Issue Terms as the manner in which a Floating Interest Rate is to be determined and Index Determination is specified as being applicable in the applicable Issue Terms, the Floating Interest Rate for the relevant Interest Period will, subject as provided below, be calculated by reference to the screen rate or index administered by the administrator of the Sterling Overnight Index Average reference rate that is published or displayed by such administrator or other information service from time to time at the relevant time on the relevant determination dates specified below (and subject as provided in Valuation and Settlement Condition 4.2(g) (*Corrections in respect of compounded rates and indices*) the "**SONIA Compounded Index**") and the following formula (the "**SONIA Index Floating Rate**"). Such Floating Interest Rate will be plus or minus (if any is specified in the applicable Issue Terms in relation to such SONIA Index Floating Rate) the Margin (if any) and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such SONIA Index Floating Rate):

Compounded Daily SONIA =

$$\left( \frac{\text{SONIA Compounded Index}_y}{\text{SONIA Compounded Index}_x} - 1 \right) \times \left( \frac{365}{d} \right)$$

For the purposes of the above definition, the following terms have the following meanings:

"**d**" is the number of calendar days from (and including) the day in relation to which "x" is determined to (but excluding) the day in relation to which "y" is determined;

"**Relevant Number**" is as specified in the applicable Issue Terms;

"**x**" denotes the value of the relevant SONIA Compounded Index determined in relation to the day falling the Relevant Number of London Banking Days prior to the first day of the relevant Interest Period; and

"**y**" denotes the value of the relevant SONIA Compounded Index determined in relation to the day falling the Relevant Number of London Banking Days prior to the Final Interest Period End Date of the relevant Interest Period.

(iii) *Non-availability*

Subject as provided in Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*), and save where Index Determination applies, the following provisions (the "**SFRD (Non-Index) Fallback Provisions**") will apply if, in respect of any London Banking Day, the Relevant Agent determines that the SONIA rate is not available on the relevant Page or has not otherwise been published by the relevant authorised distributors. In such circumstances, the Relevant Agent will determine such SONIA rate as being: (i)(A) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at close of business on such day; plus (B) the mean of the spread of the SONIA rate to the Bank Rate over the previous five days on which a SONIA rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those spreads) and the lowest spread (or, if there is more than one lowest spread, one only of those spreads) to the Bank Rate, or (ii) if the Bank Rate is not published by the Bank of England at close of business on such day, the SONIA rate published on the relevant Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA rate was published on such Page (or otherwise published by the relevant authorised distributors).

Notwithstanding the foregoing, in the event the Bank of England publishes guidance as to (i) how the SONIA rate is to be determined or (ii) any rate that is to replace the SONIA rate, the Relevant Agent shall, to the extent that it is reasonably practicable, follow such guidance in order to determine the SONIA rate for the purpose of the Securities for so long as the SONIA rate is not available or has not been published by the authorised distributors.

Subject as provided in Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*), and where Index Determination is specified as being applicable in the applicable Issue Terms, the following provisions (the "**SFRD (Index) Fallback Provisions**") will apply if in respect of any relevant determination date a SONIA Compounded Index value has not been provided or published by or on behalf of the relevant administrator (or any successor administrator) or authorised distributors or the relevant website is not available. In these circumstances, the relevant SONIA Compounded Index value shall be determined by the Relevant Agent in good faith and in a commercially reasonable manner having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market).

(iv) *Amendments to SONIA Methodology*

In the event that the administrator of SONIA amends the methodology of SONIA (including, without limitation, amendments to the time of publication of the relevant rate), the Relevant Agent may but shall not be required to make any related or consequential changes to the Conditions not otherwise provided for in this Condition (including, without limitation, any technical, administrative or operational changes, changes to timing and frequency of determining rates and making payments of interest) that the Relevant Agent determines to be appropriate in a manner substantially consistent with market practice (or, if the Relevant Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Relevant Agent determines that no appropriate market practice exists, in such other manner as the Relevant Agent determines is reasonably necessary).

"**Observation Look-Back Period**" means the number of U.S. Government Securities Business Days specified in the applicable Issue Terms;

"**p**" means (save as specified in the applicable Issue Terms) the number of U.S. Government Securities Business Days included in the Observation Look-Back Period specified in the applicable Issue Terms;

"**Relevant SOFR Level**" means:

- (a) where "SOFR OIS Compounding" is specified as the Compounding Method in the applicable Issue Terms, in respect of any U.S. Government Securities Business Day "**i**" in the relevant Interest Period, the SOFR Reference Rate for such day, PROVIDED THAT, for the purposes of calculating the SOFR Floating Rate for the final Interest Period, the SOFR Reference Rate for each U.S. Government Securities Business Day in the period from (and including) the SOFR Reference Rate Cut-off Date to (but excluding) the Maturity Date or the redemption date, as applicable, shall be the SOFR Reference Rate for such SOFR Reference Rate Cut-off Date; or

Where SOFR Floating Rate Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined and Index Determination is specified as being applicable in the applicable Issue Terms, the Floating Interest Rate for the relevant Interest Period will, subject as provided below, be calculated by reference to the following formula and based on the SOFR Index (as defined below) (the "SOFR Index Floating Rate") and the resulting percentage will be rounded if necessary to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards, or otherwise in accordance with applicable market convention in the derivatives market. Such Interest Rate will be plus or minus (if any is specified in the applicable Issue Terms in relation to such SOFR Index Floating Rate) the Margin (if any) and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such SOFR Index Floating Rate):

Compounded Daily SOFR =

(iii) *Amendment of SARON Methodology*

In the event that the administrator of SARON amends the methodology of SARON (including, without limitation, amendments to the time of publication of the relevant rate), the Relevant Agent may but shall not be required to make any related or consequential changes to the Conditions not otherwise provided for in this Condition (including, without limitation, any technical, administrative or operational changes, changes to timing and frequency of determining rates) that the Relevant Agent determines to be appropriate in a manner substantially consistent with market practice (or, if the Relevant Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Relevant Agent determines that no appropriate market practice exists, in such other manner as the Relevant Agent determines is reasonably necessary).

(g) *Corrections in respect of compounded rates and indices*

In the event that any SONIA rate, SONIA Compounded Index, SOFR Reference Rate, SOFR Index value, €STR Reference Rate or SARON Reference Rate is subsequently corrected, and the correction (the "**Corrected Rate**") is published after the original publication but no later than the longer of (a) one hour after such original publication and (b) any other period for corrections specified by a relevant administrator in its methodology for the relevant rate or index, then PROVIDED THAT such Corrected Rate is published on or prior to the date falling two Business Days prior to the date on which a related payment is scheduled to be made under the Securities (the "**Relevant**

**Scheduled Payment Date**"), then such Corrected Rate shall be deemed to be the rate for the relevant date and the Calculation Agent or Determination Agent (as applicable) shall use such Corrected Rate in determining any relevant amount payable in respect of the Securities. Any corrections published after the second Business Day prior to the Relevant Scheduled Payment Date shall be disregarded for the purposes of determining the relevant Screen Rate.

(h) *Payments in respect of interest on early redemption*

In circumstances where an Early Termination Amount becomes payable in respect of any interest bearing Securities in accordance with the Conditions on a date other than an Interest Period End Date and (i) separate amounts in respect of accrued interest are specified to be payable on early redemption and/or (ii) the Early Termination Amount is defined to include an amount of accrued interest separate from any amounts in respect of principal or any option or interest on any option (the "**Embedded Accrued Interest Amount**") and/or (iii) any Early Termination Amount does not include amounts in respect of accrued interest, the Issuer shall pay, in lieu of any such separate or embedded amounts of interest, an amount on account of the unpaid interest element of the Securities being early redeemed (the "**Early Termination Interest Amount**") in addition to the relevant Early Termination Amount. The Early Termination Interest Amount shall be calculated as follows:

- (i) where the Interest Rate and/or Interest Amount and/or Embedded Accrued Interest Amount applicable to the Interest Payment Date falling immediately after the date of early redemption can be determined prior to the relevant date of early redemption, the Early Termination Interest Amount shall be calculated as the amount of accrued but unpaid interest payable in respect of each Calculation Amount determined on the basis of the Conditions, adjusted only so that the due date for early redemption is deemed to be the final Interest Payment Date, and applying the Day Count Fraction specified in the applicable Issue Terms, or otherwise as the Relevant Agent determines appropriate, taking into account the period elapsed since the previous Interest Period End Date or (if none) the Issue Date; or
- (ii) in all other cases, the Early Termination Interest Amount shall be calculated as an amount determined by the Relevant Agent as reflecting the fair market value of the unpaid interest element of the relevant Calculation Amount (if any) less (except in the case of any early redemption pursuant to General Condition 11 (*Events of Default*)) the proportionate cost to the Issuer and/or its Affiliates of unwinding any underlying and/or related hedging and funding arrangements in respect of the Securities (including, without limitation, any options relating to any Underlying hedging the Issuer's obligations under the Securities) and, for the purposes of determining the fair market value of such Calculation Amount for the purposes of General Condition 11 (*Events of Default*), no account shall be taken of the financial condition of the Issuer, the CGMHI Guarantor or the CGMFL Guarantor which, in each case, shall be presumed to be able to perform fully their respective obligations in respect of the Securities.

For the avoidance of doubt, no such Early Termination Interest Amount which is contingent upon any event shall be payable in respect of the Securities, unless all the relevant events have been satisfied.

#### 4.3 Interest on CMS Rate Securities

(a) *Interest Amount*

Where the applicable Issue Terms specify the CMS Rate Securities Provisions to be applicable to the Securities or are otherwise deemed to apply as provided under the terms of this Valuation and Settlement Schedule ("**CMS Rate Securities**"), the

definitions and provisions of this Valuation and Settlement Condition 4.3 (the "**CMS Rate Securities Provisions**") shall apply.

Each CMS Rate Security bears interest from (and **including**) the relevant Interest Commencement Date and, where interest is due in accordance with this Valuation and Settlement Schedule and the applicable Issue Terms and subject as otherwise provided in the Valuation and Settlement Conditions, the relevant Interest Amount determined in accordance with Valuation and Settlement Condition 4.5 (*General provisions relating to interest*) will be payable in arrear on each Interest Payment Date(s) to which the CMS Rate Securities Provisions apply as specified in the applicable Issue Terms. In respect of an Interest Period ending on (but excluding) an Ending Interest Period End Date, such Interest Amount(s) will be payable on the Interest Payment Date falling on or about such Ending Interest Period End Date.

The Interest Rate in respect of each Interest Period and/or Interest Payment Date to which the CMS Rate Securities Provisions apply, as specified in the applicable Issue Terms will be equal to the CMS Interest Rate.

The interest (if any) payable in respect of an Interest Payment Date shall be subject to Valuation and Settlement Condition 1.3 (*Interest Amount due in respect of the Securities if Interest Barrier Event is specified to apply*) if an Interest Barrier Event is specified to apply in the applicable Issue Terms in respect of such Interest Payment Date.

If an Interest Rate or a Reference Rate for any period or any relevant day (including any Interest Payment Date) is specified in any other Condition or in the applicable Issue Terms to be a "**CMS Interest Rate**", the relevant Interest Rate or Reference Rate will be determined in accordance with this Valuation and Settlement Condition 4.3 (*Interest on CMS Rate Securities*).

A different CMS Interest Rate may apply in respect of different Interest Periods and/or Interest Payment Dates, as specified in the applicable Issue Terms.

(b) *Single CMS Interest Rate*

If the CMS Interest Rate is specified in the applicable Issue Terms to be "Single CMS Interest Rate", the CMS Interest Rate in respect of an Interest Period or any relevant day will be equal to the CMS Reference Rate, plus or minus (as specified in the applicable Issue Terms) the Margin (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate), and multiplied by the Interest Participation Rate (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate), all as determined by the Relevant Agent.

(c) *Worse of CMS Interest Rates*

If the CMS Interest Rate is specified in the applicable Issue Terms to be "Worse of CMS Interest Rates", the CMS Interest Rate in respect of an Interest Period or any relevant day will be equal to the lesser of: (1) CMS Reference Rate 1 plus or minus (as specified in the applicable Issue Terms) Margin 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), and multiplied by Interest Participation Rate 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), and (2) CMS Reference Rate 2, plus or minus (as specified in the applicable Issue Terms) Margin 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2), and multiplied by Interest Participation Rate 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2). Where (1) and (2) are the same value, then such value will be the relevant CMS Interest Rate.

(d) *CMS Spread Interest Rate*

If the CMS Interest Rate is specified in the applicable Issue Terms to be "CMS Spread Interest Rate", the CMS Interest Rate in respect of an Interest Period or any relevant

day will be equal to the difference between (1) CMS Reference Rate 1, plus or minus (as specified in the applicable Issue Terms) Margin 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), and multiplied by Interest Participation Rate 1 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 1), minus (2) CMS Reference Rate 2, plus or minus (as specified in the applicable Issue Terms) Margin 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2), and multiplied by Interest Participation Rate 2 (if any is specified in the applicable Issue Terms in relation to such CMS Reference Rate 2).

(e) *CMS Reference Rate Fallback Provisions*

In respect of a CMS Reference Rate and the Relevant Swap Rate (used to determine such CMS Reference Rate), subject as provided in Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*), if a Page for such Relevant Swap Rate is not available or the Relevant Swap Rate does not appear on the Page or the Relevant Swap Rate is not provided or published by the relevant administrator and/or a relevant authorised distributor or a component of the Relevant Swap Rate is not provided or published, in each case as at approximately the Relevant Time on the Interest Determination Date in question, the Relevant Swap Rate shall be determined by the Relevant Agent in good faith and in a commercially reasonable manner having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market). For the avoidance of doubt and without limitation, the Relevant Agent may determine the Relevant Swap Rate by reference to one of the following:

- (i) the Relevant Swap Rate for the relevant designated maturity (where applicable) published on the relevant Interest Determination Date on a different screen page by another authorised distributor of the relevant rate;
- (ii) a rate formally recommended for use by the administrator of the Relevant Swap Rate or the supervisor or competent authority (or a committee endorsed or convened by any such entity) responsible for supervising the Relevant Swap Rate or the administrator thereof; or
- (iii) the Relevant Swap Rate for the relevant designated maturity (where applicable) last provided or published by the relevant administrator; or
- (iv) the arithmetic mean of quotations provided by reference banks selected by the Relevant Agent on a date determined by the Relevant Agent for a representative amount (and, where relevant, with an acknowledged dealer of good credit in the swap market) and, if applicable, for a term equal to the designated maturity, calculated in the manner determined by the Relevant Agent.

In the event that the administrator of a Relevant Swap Rate amends the methodology of such Relevant Swap Rate (including, without limitation, amendments to the time of publication of the relevant rate), the Relevant Agent may but shall not be required to make any related or consequential changes to the Conditions not otherwise provided for in this Valuation and Settlement Condition 4.3(e) (including, without limitation, any technical, administrative or operational changes, changes to timing and frequency of determining rates and making payments of interest and changes to the definition of designated maturity (where applicable)) that the Relevant Agent determines to be appropriate in a manner substantially consistent with market practice (or, if the Relevant Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Relevant Agent determines that no appropriate market practice exists, in such other manner as the Relevant Agent determines is reasonably necessary).

In the event that the Relevant Swap Rate is subsequently corrected, and the correction (the "**Corrected Rate**") is published after the original publication but no later than the longer of (a) one hour after such original publication and (b) any other period for corrections specified by a relevant administrator in its methodology for the Relevant Swap Rate, then PROVIDED THAT such Corrected Rate is published on or prior to the date falling two Business Days prior to the date on which a related payment is scheduled to be made under the Securities (the "**Relevant Scheduled Payment Date**")), then such Corrected Rate shall be deemed to be the relevant Relevant Swap Rate and the Relevant Agent shall use such Corrected Rate in determining any relevant amount payable in respect of the Securities. Any corrections published after the second Business Day prior to the Relevant Scheduled Payment Date shall be disregarded for the purposes of determining the Relevant Swap Rate.

If the Relevant Swap Rate is determined by the Determination Agent as provided above, the Determination Agent shall notify the Calculation Agent and the Issuer of any such Relevant Swap Rate so determined as soon as reasonably practicable, but in any event, prior to the date on which any relevant amount is to be determined.

The Relevant Agent shall not be responsible to the Issuer, the CGMHI Guarantor or the CGMFL Guarantor or to any third party as a result of the Relevant Agent having acted on any quotation given by any reference bank.

#### 4.4 Forward Rate Securities

If a Reference Rate is specified in the applicable Issue Terms to be a Forward Rate, the **"Forward Rate"** for an Interest Period will be determined by the Relevant Agent by requesting each of the Forward Rate Reference Banks to provide the Relevant Agent with its offered quotation (expressed as a percentage rate per annum) for the Implied Forward Rate at approximately the Specified Time on the Interest Determination Date in question. If five of the Forward Rate Reference Banks provide the Relevant Agent with offered quotations, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Relevant Agent and the Forward Rate will be the arithmetic mean (rounded as provided below) of such offered quotations.

If four or three of the Forward Rate Reference Banks provide the Relevant Agent with offered quotations as provided in the preceding paragraph, the Forward Rate for the relevant Interest Period shall be the arithmetic mean of the offered quotations for the Forward Rate. If fewer than three Forward Rate Reference Banks provide the Relevant Agent with offered quotations, the

Forward Rate for the relevant Interest Period shall be such rate as is determined by the Relevant Agent in good faith and in a commercially reasonable manner, having regard to comparable benchmarks then available.

The Relevant Agent shall not be responsible to the Issuer, the CGMHI Guarantor or the CGMFL Guarantor or to any third party as a result of the Relevant Agent having acted on any quotation given by any Reference Bank.

#### 4.5 General provisions relating to interest

(a) *Maximum/Minimum Interest Rates and Maximum/Minimum Reference Rates*

(i) *Maximum/Minimum Interest Rates*

If a Maximum Interest Rate or Minimum Interest Rate (or both) is specified in the applicable Issue Terms for an Interest Rate in respect of an Interest Period and/or any relevant day (including any Interest Payment Date), then if the Interest Rate for such Interest Period and/or such day calculated in accordance with the other terms of this Valuation and Settlement Schedule would otherwise be (1) greater than such Maximum Interest Rate, the Interest Rate shall be such Maximum Interest Rate, or (2) less than such Minimum Interest Rate, the Interest Rate shall be such Minimum Interest Rate.

Unless otherwise stated in the applicable Issue Terms, the Minimum Interest Rate shall be deemed to be zero.

If the Securities are New York Law Securities and the aggregate principal amount (or in respect of Certificates, the aggregate of the Calculation Amounts in respect of the Certificates) of the relevant Tranche is less than U.S.\$2,500,000 (or equivalent), in addition to any Maximum Interest Rate as provided above, where the Interest Rate is other than a fixed rate of interest, the Interest Rate will in no event be higher than the maximum rate permitted by applicable law.

(ii) *Maximum/Minimum Reference Rates*

If a Maximum Reference Rate or Minimum Reference Rate (or both) is specified in the applicable Issue Terms for a Reference Rate in respect of an Interest Period and/or any relevant day (including any Interest Payment Date), then if the Reference Rate for such Interest Period and/or such day calculated in accordance with the other terms of this Valuation and Settlement Schedule would otherwise be (1) greater than such Maximum Reference Rate, the Reference Rate shall be such Maximum Reference Rate, or (2) less than such Minimum Reference Rate, the Interest Rate shall be such Minimum Reference Rate.

Unless otherwise stated in the applicable Issue Terms, the Minimum Reference Rate in respect of any Reference Rate for an Interest Period or any relevant day (as applicable) shall be deemed to be zero.

If the Securities are New York Law Securities and the aggregate principal amount (or in respect of Certificates, the aggregate of the Calculation Amounts in respect of the Certificates) of the relevant Tranche is less than U.S.\$2,500,000 (or equivalent), in addition to any Maximum Reference Rate as provided above, where the Interest Rate is other than a fixed rate of interest,

the Interest Rate will in no event be higher than the maximum rate permitted by applicable law.

(b) *Calculations – Notes*

In the case where the Securities are Notes, the Calculation Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Floating Rate Securities or the CMS Rate Securities, as the case may be, for the relevant Interest Period by applying the relevant Interest Rate to:

- (i) in the case of Floating Rate Securities or CMS Rate Securities which are represented by a Global Security, the aggregate outstanding principal amount of the Securities represented by such Global Security; or
- (ii) in the case of Floating Rate Securities or CMS Rate Securities in definitive form, the Calculation Amount,

and, in each case, (i) multiplying such product by the applicable Day Count Fraction, and (ii) (a) in respect of Range Accrual Securities, multiplying the product calculated in (I) by the Accrual Rate (as described in the definition of Interest Amount in Valuation and Settlement Condition 1 (*Interest and Redemption Provisions*)) or (b) where Valuation and Settlement Condition 4.7 (*Range Accrual (Expanded) Securities*) applies, multiplying the product calculated in (i) by the Accrual Interest Rate. The resultant figure will be rounded to the nearest sub-unit of the relevant Settlement Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Security is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

The Interest Amount payable in respect of an Interest Payment Date shall be subject to Valuation and Settlement Condition 1.3 (*Interest Amount due in respect of the Securities if Interest Barrier Event is specified to apply*) if an Interest Barrier Event is specified to apply in the applicable Issue Terms in respect of such Interest Payment Date.

(c) *Calculation – Certificates*

In the case where the Securities are Certificates, the Calculation Agent will calculate the amount of coupon (the "**Coupon Amount**") payable on the Floating Rate Securities or the CMS Rate Securities, as the case may be, for the relevant Coupon Period by applying the relevant Coupon Rate to:

- (i) in the case of the Floating Rate Securities or CMS Rate Securities which are represented by a Global Security, the aggregate of the Calculation Amounts in respect of the total number of the Securities represented by such Global Security; or
- (ii) in the case of the Floating Rate Securities or CMS Rate Securities in definitive form, the Calculation Amount,

In such case, the Valuation and Settlement Conditions applicable in relation to the particular type(s) of Securities and interest basis shall apply in respect of the relevant Interest Period(s) and/or Interest Payment Date(s) as specified in the Issue Terms.

(a) *Switcher Option*

If the applicable Issue Terms specify the Switcher Option to be applicable, the Issuer may, having given the number of days' notice specified in the applicable Issue Terms or, if none is so specified:

- (i) not less than, five nor more than 60 days' notice to the Securityholders in accordance with General Condition 15 (*Notices*); and

Any Switcher Option shall become effective from and including the Switcher Interest Commencement Date and the Securities shall cease to bear interest (if any) on the existing interest basis and shall bear interest at the New Interest Basis from and including the Switcher Interest Commencement Date.

If so specified in the applicable Issue Terms, the Issuer may be able to exercise the Switcher Option more than once and to one or more specified New Interest Basis (Bases).

If a "Conversion Amount per Calculation Amount payable by the Issuer" is specified in the applicable Issue Terms, the Issuer shall pay such amount per Calculation Amount to the Securityholders on the relevant Switcher Payment Date specified in the applicable Issue Terms, such payment to be made in accordance with and subject to the Conditions.

(b) *Automatic Change of Interest Basis*

If the applicable Issue Terms specify "Automatic Change of Interest Basis" to be applicable, then the Interest Rate or Interest Amount in respect of an Interest Period and/or Interest Payment Date will be determined in accordance with the interest basis applicable to such Interest Period and/or Interest Payment Date, which will be in respect of:

Upon receipt of such confirmation or, in respect of Securities cleared through DTC, upon receipt of an Asset Transfer Notice, the Fiscal Agent will inform the

Issuer and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary thereof. Euroclear or Clearstream, Luxembourg or DTC, as the case may be, will on or before the Maturity Date or Settlement Date (as applicable) debit the securities account of the relevant Securityholder with the relevant Securities.

(C) Determinations and Delivery

Any determination as to whether an Asset Transfer Notice is duly completed and in proper form shall be made (x) in respect of Securities cleared through Euroclear or Clearstream, Luxembourg, by the relevant clearing system in consultation with the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary or (y) in respect of Securities cleared through DTC, by the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary, and shall be conclusive and binding on the Issuer, the Fiscal Agent, the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) and the relevant Securityholder. Subject as set out below, any Asset Transfer Notice so determined to be incomplete or not in proper form, or, in respect of Securities cleared through Euroclear or Clearstream, Luxembourg, which is not copied to the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary immediately after being delivered or sent to the relevant clearing system, as provided in Valuation and Settlement Condition 7(a) above, shall be null and void.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of (x) in respect of Securities cleared through Euroclear or Clearstream, Luxembourg, the relevant clearing system in consultation with the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary or (y) in respect of Securities cleared through DTC, the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary, it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered (x) in respect of Securities cleared through Euroclear or Clearstream, Luxembourg, to the relevant clearing system and the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary or (y) in respect of Securities cleared through DTC, to the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary.

The Fiscal Agent or, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary shall use reasonable endeavours promptly to notify the Securityholder submitting an Asset Transfer Notice, if it has been determined, as provided above, that such Asset Transfer Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the CGMHI Guarantor, the CGMFL Guarantor, the Paying Agents, the Agents, the Calculation Agent, the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) and the Relevant Clearing System shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Securityholder.

No Asset Transfer Notice may be withdrawn after receipt thereof by the Relevant Clearing System (where applicable) or the Fiscal Agent or the Intermediary, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Securityholder may not transfer the Securities which are the subject of such notice.

Subject as provided herein and subject to the payment of any Expenses, the Entitlement will be delivered at the risk of the relevant Securityholder, in the manner provided below on the Maturity Date or Settlement Date (as applicable) (such date, subject to adjustment in accordance with this Condition, the "**Delivery Date**"), PROVIDED THAT the Asset Transfer Notice is duly delivered (x) in respect of Securities cleared through Euroclear or Clearstream, Luxembourg, to the relevant clearing system with a copy to the Fiscal Agent and where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary; (y) in respect of Securities cleared through DTC, to the Fiscal Agent and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary, as provided above on or prior to the Cut-off Date.

If a Securityholder fails to give an Asset Transfer Notice, as provided herein on or prior to the Cut-off Date, then the Entitlement will be delivered as soon as practicable after the Maturity Date or Settlement Date (as applicable) (in which case, such date of delivery shall be the Delivery Date) at the risk of such Securityholder in the manner provided below. For the avoidance of doubt, in such circumstances such Securityholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the Maturity Date or Settlement Date (as applicable) and no liability in respect thereof shall attach to the Issuer or the Intermediary (if any).

**If a Securityholder fails to give an Asset Transfer Notice as provided herein on or prior to the date falling 180 days after the Cut-off Date, then the Issuer's and any Intermediary's obligations in respect of the Securities held by such Securityholder for which no Asset Transfer Notice has been given shall be discharged and the Issuer and the Intermediary (if any) shall have no further liability in respect thereof.**

The Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) shall, at the risk of the relevant Securityholder, deliver or procure the delivery of the Entitlement for each Security, pursuant to the details specified in the Asset Transfer Notice or in such commercially reasonable manner as the Calculation Agent shall determine and notify to the person designated by the Securityholder in the relevant Asset Transfer Notice. All Expenses arising from the delivery of the Entitlement in respect of such Securities shall be for the account of the relevant Securityholder and no delivery of the Entitlement shall be made until all Expenses have been paid to the satisfaction of the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) by the relevant Securityholder. Any such Expenses shall either be:

- (1) paid to the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) by such Securityholder prior to the delivery of the Entitlement; or
- (2) deducted by the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) from any cash amount owing to such Securityholder and paid by the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms)

on behalf of the Securityholder or paid by the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) on behalf of such Securityholder by converting such amount of the Relevant Assets due to be delivered as necessary to pay the Expenses,

as specified by the Securityholder in the relevant Asset Transfer Notice.

If any Expenses are not paid by a Securityholder pursuant to the above, the relevant Securityholder shall be deemed to authorise the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) to convert and the Issuer or the Intermediary, as applicable, may convert such amount of the Relevant Assets due to be delivered into cash sufficient to cover the Expenses in respect of the relevant Security from which the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) shall deduct such Expenses. The Issuer's and, where Settlement via Intermediary is specified as applicable in the applicable Issue Terms, the Intermediary's obligations in respect of each Security will be satisfied in relation to the Maturity Date or Settlement Date (as applicable) by delivery of the remaining Entitlement in respect of such Security.

All deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of delivery.

(D) General

Subject as provided below, Securities held by the same Securityholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Securities, PROVIDED THAT the aggregate Entitlements in respect of the same Securityholder will be rounded down to the nearest whole Tradeable Amount of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. If the applicable Issue Terms specifies that Aggregation of Entitlements does not apply, the Entitlement in respect of each Security will be rounded down to the nearest whole multiple of the Tradeable Amount (as specified in the applicable Issue Terms) of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine.

Therefore, fractions or numbers of the Relevant Asset or of each of the Relevant Assets, as the case may be, less than the relevant Tradeable Amount (the "**Fractional Entitlement**") will not be delivered and no cash or other adjustment will be made in respect thereof unless "Cash Adjustment" is specified as applicable in the applicable Issue Terms. If "Cash Adjustment" is specified as applicable in the applicable Issue Terms, the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) shall pay to the relevant Securityholder a cash amount in the Settlement Currency (to be paid at the same time as delivery of the Entitlement) equal to the value (as determined by the Calculation Agent) of such Fractional Entitlement, calculated by reference to the Final Reference Level of the Entitlement Underlying (converted into the Settlement Currency (being, in the case of Dual Currency Securities, the Denomination Currency) where relevant by dividing the Final Reference Level of the Entitlement Underlying by the applicable FX).

Following the Delivery Date in respect of a Security where the Entitlement(s) includes securities, all dividends and/or other distributions on the relevant

securities to be delivered will be payable to the party that would receive such dividend or distribution according to market practice for a sale of the relevant securities executed on the Delivery Date and to be delivered in the same manner as such relevant securities. Any such dividends or distributions to be paid to a Securityholder will be paid to the account specified by the Securityholder in the relevant Asset Transfer Notice as referred to above.

If any Entitlement is delivered later than the date on which delivery would otherwise have taken place as provided herein, the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) or any person acting on behalf of such relevant entity shall continue to be the legal owner of the assets comprising the Entitlement (the "**Intervening Period**"). None of the Issuer, the CGMHI Guarantor, the CGMFL Guarantor, any Intermediary or any other person shall at any time (A) be under any obligation to deliver or procure delivery to any Securityholder any letter, certificate, notice, circular or any other document or, except as provided herein, any payment whatsoever received by that person in its capacity as the holder of such assets, (B) be under any obligation to exercise or procure exercise of any or all rights attaching to such assets or (C) be under any liability to a Securityholder in respect of any loss or damage which such Securityholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such assets.

None of the Issuer, the CGMHI Guarantor, the CGMFL Guarantor, any Intermediary, the Calculation Agent, the Paying Agents and the Agents shall under any circumstances be liable for any acts or defaults of any Relevant Clearing System in relation to the performance of its duties in relation to the Securities.

(E) Settlement Disruption

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the Delivery Method specified in this Valuation and Settlement Schedule or such other commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event subsisting on the Maturity Date or Settlement Date (as applicable), then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, PROVIDED THAT the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may elect to deliver the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then *in lieu* of physical settlement and notwithstanding any other provision hereof the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may elect, *in lieu* of delivering the Entitlement to pay to the relevant Securityholder the Disruption Cash Redemption Amount on the fifth Business

Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 15 (*Notices*). Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 15 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 15 (*Notices*) that a Settlement Disruption Event has occurred. No Securityholder shall be entitled to any payment in respect of the relevant Security in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer or any Intermediary.

For the purposes hereof:

**"Disruption Cash Redemption Amount"**, in respect of any relevant Security, means the fair market value of such Security on a day selected by the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less the cost of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent;

**"Settlement Business Day"**, in respect of each Security, means a day which is a Business Day and a day on which the Relevant Clearing System is open; and

**"Settlement Disruption Event"** means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) as a result of which the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) cannot make delivery of the Relevant Asset(s) using the Delivery Method specified in this Valuation and Settlement Schedule.

(F) Failure to Deliver due to Illiquidity

If "Failure to Deliver due to Illiquidity" is specified as applicable in the applicable Issue Terms and in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the "**Affected Relevant Assets**") comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a "**Failure to Deliver**"), then:

- (1) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Maturity Date or Settlement Date (as applicable) in accordance with this Condition; and
- (2) in respect of any Affected Relevant Assets, *in lieu* of physical settlement and notwithstanding any other provision hereof, the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may elect, *in lieu* of delivering the Affected Relevant Assets, to pay to the relevant Securityholder the Failure to

Deliver Redemption Amount on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with General Condition 15 (*Notices*). Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 15 (*Notices*). The Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) shall give notice as soon as practicable to the Securityholders in accordance with General Condition 15 (*Notices*) that the provisions of this Valuation and Settlement Condition apply.

For the purposes hereof, "**Failure to Deliver Redemption Amount**" in respect of any relevant Security shall be the fair market value of the Affected Relevant Assets on a day selected by the Calculation Agent, less the cost of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent (acting in its sole and absolute discretion).

(b) *Issuer's or Intermediary's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount*

The Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the applicable Issue Terms) may, in respect of Physical Delivery Securities, if the Calculation Agent determines that the Relevant Asset or Relevant Assets, as the case may be, comprises securities which are not freely tradeable and deliverable, elect either (i) to substitute for the Entitlement (or part thereof), an equivalent value (as determined by the Calculation Agent) of such other securities which the Calculation Agent determines are freely tradeable (each a "**Substitute Asset**") or (ii) not to deliver the Entitlement or any Substitute Asset, as the case may be, to the relevant Securityholders, but *in lieu* thereof to make payment to each relevant Securityholder on the Maturity Date or Settlement Date (as applicable) of an amount equal to the fair market value of the Entitlement (or part thereof) as determined by the Calculation Agent at such time and by reference to such sources as it considers appropriate (the "**Alternate Cash Redemption Amount**"). Notification of any such election will be given to Securityholders in accordance with General Condition 15 (*Notices*).

For purposes hereof, a "**freely tradeable**" and deliverable security shall mean (i) with respect to the United States, a security which is registered under the United States Securities Act of 1993, as amended (the "**Securities Act**") or not restricted under the Securities Act and which is not purchased from the issuer of such security and not purchased from an affiliate of the issuer of such security or which otherwise meets the requirements of a freely tradeable security for purposes of the Securities Act, in each case, as determined by the Calculation Agent or (ii) with respect to any jurisdiction, a security not subject to any other legal or regulatory restrictions on transfer in such jurisdiction.

(c) *Rights of Securityholders*

The purchase of Securities does not confer on any holder of such Securities any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

(d) *Issuer or Intermediary Option to Vary Settlement in respect of Physical Delivery Securities*

In respect of Physical Delivery Securities, the Issuer (where Settlement via Intermediary is not specified as applicable in the applicable Issue Terms) or the Intermediary (where Settlement via Intermediary is specified as applicable in the

applicable Issue Terms) may, elect not to deliver or procure delivery of the Entitlement to the relevant Securityholders but *in lieu* thereof to make payment on the Maturity Date or Settlement Date (as applicable) to the relevant Securityholders of an amount in respect of each Security equal to the fair market value of the Entitlement as determined by the Calculation Agent at such time and by reference to such sources as it considers appropriate. Notification of such election will be given to Securityholders in accordance with General Condition 15 (*Notices*).

This Valuation and Settlement Condition 7 (*Physical Delivery Securities*) is not applicable to the French Cleared Securities and French Law Securities.

## 8. Dual Currency Security Provisions

Where the applicable Issue Terms specify that the Dual Currency Securities Provisions apply, then in order to determine amounts payable or assets deliverable in respect of the Securities, the Calculation Agent shall:

- (a) in respect of any payments in respect of the Securities, convert the relevant payment amount (as otherwise determined in accordance with the provisions of the General Conditions, this Valuation and Settlement Schedule and/or the applicable Issue Terms) from the Denomination Currency into the DC Relevant Currency by multiplying or dividing (as specified in the applicable Issue Terms) such amount by the Dual Currency Exchange Rate for the DC Valuation Date relating to the date on which such payment is to be made; or
- (b) in order to determine any cash amounts due in respect of Physical Delivery Securities, convert any such cash amounts due from the Denomination Currency into the DC Relevant Currency by multiplying such amount by the Dual Currency Exchange Rate for the DC Valuation Date relating to the date on which such delivery is to be made.

Where:

"**DC Relevant Currency**" means the currency in respect of payments and/or deliveries, as specified in the applicable Issue Terms.

"**Denomination Currency**" means the currency of the Security, as specified in the applicable Issue Terms.

"**Dual Currency Exchange Rate**" means any Underlying which is an FX Rate and as is designated as the Dual Currency Exchange Rate for the relevant payment and/or delivery in the applicable Issue Terms.

"**Specified DC Valuation Date**" means, in respect of a scheduled Interest Payment Date and/or Optional Redemption Date and the Maturity Date (each a "**Relevant Date**"), the date specified as such for such Interest Period and/or Interest Payment Date in the applicable Issue Terms. Each such date shall be deemed to be a Specified Valuation Date and shall be adjusted as provided in these Valuation and Settlement Conditions and the applicable Issue Terms, and each such date, as so adjusted, a "**DC Valuation Date**".

## 9. Reference Rate Event Provisions

This Valuation and Settlement Condition 9 shall apply in the circumstances specified in Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*).

### 9.1 Reference Rate Event

Notwithstanding anything to the contrary in the Conditions, if the Relevant Agent determines that a Reference Rate Event has occurred in respect of a Reference Rate, the Relevant Agent will:

- (a) seek to identify a Replacement Reference Rate in respect of the Reference Rate; and

- (b) if it identifies a Replacement Reference Rate in respect of the Reference Rate:
- (i) calculate an Adjustment Spread that will be applied to the Replacement Reference Rate;
  - (ii) determine such other amendments to the Securities which it considers are necessary and/or appropriate in order to account for the effect of the replacement of the Reference Rate with the Replacement Reference Rate (as adjusted by the Adjustment Spread); and
  - (iii) determine the timing for when the Replacement Reference Rate, Adjustment Spread and such other adjustments will become effective in relation to the relevant Securities,

PROVIDED THAT, as an alternative to the procedure described in sub-paragraphs (i) and (ii) above, the Relevant Agent may instead: (A) determine that no Replacement Reference Rate or other amendments to the terms of the Securities are required as a result of such Reference Rate Event (such determination being a "**No Adjustment Determination**"); or (B) make such adjustment(s) to the terms of the Securities as it determines necessary or appropriate to account for the effect of such Reference Rate Event (the "**RRE Adjustments**").

PROVIDED THAT the Relevant Agent has fully determined for purposes of the Securities, as applicable, (i) a Replacement Reference Rate and the related timing and amendments to the Securities or (ii) the relevant RRE Adjustments, the Relevant Agent shall notify the Issuer of such determination made by it and the action that it proposes to take in respect of any such determination as soon as reasonably practicable and in any event prior to the earliest effective date for the relevant replacement and amendments or the relevant adjustments, as applicable. The Issuer shall notify the Securityholders thereof as soon as reasonably practicable thereafter in accordance with General Condition 15 (*Notices*). Failure by the Relevant Agent to notify the Issuer or failure by the Issuer to notify the Securityholders of any such determination will not affect the validity of any such determination.

Where "**Reference Rate Early Termination**" is specified as applicable in the applicable Issue Terms and if:

- (1) the Relevant Agent has not made a No Adjustment Determination and the Relevant Agent determines that it is not possible or commercially reasonable to determine any RRE Adjustments; or
- (2) the Relevant Agent determines that it is not possible or commercially reasonable to identify a Replacement Reference Rate; or
- (3) the Relevant Agent determines that it is not possible or commercially reasonable to calculate an Adjustment Spread,

the Issuer may redeem the Securities on a day selected by the Issuer, in which case each Security shall be redeemed by payment of an amount equal to the Early Termination Amount and the Issuer shall notify the Securityholders thereof as soon as reasonably practicable in accordance with General Condition 15 (*Notices*).

## 9.2 Interim Adjustments

If, following a Reference Rate Event but prior to any replacement or amendment having become effective pursuant to Valuation and Settlement Condition 9.1 above, the relevant Reference Rate is required for any determination in respect of the Securities and at that time, no replacement or amendments have occurred in accordance with Valuation and Settlement Condition 9.1 and:

- (a) if the Reference Rate is still available, and it is still permitted under applicable law or regulation for the Securities to reference the Reference Rate and for the Issuer and/or the Relevant Agent to use the Reference Rate to perform its or their respective obligations under the Securities, the level of the Reference Rate shall be determined

pursuant to the terms that would apply to the determination of the Reference Rate as if no Reference Rate Event had occurred; or

- (b) if the Reference Rate is no longer available or it is no longer permitted under applicable law or regulation applicable to the Issuer and/or to the Relevant Agent for the Securities to reference the Reference Rate or for any such entity to use the Reference Rate to perform its or their respective obligations under the Securities, the level of the Reference Rate shall be determined by the Relevant Agent in its sole and absolute discretion, after consulting any source it deems to be reasonable, as (a) a substitute or successor rate that it has determined is the industry-accepted (in the derivatives market) substitute or successor rate for the relevant Reference Rate (including any temporary substitute or successor rate) or the rate published at the relevant time on the last day on which the Reference Rate was published or was permitted to be used in accordance with applicable law or regulation (the "**Last Permitted Rate**") or (b) if it determines there is no such industry-accepted (in the derivatives market) substitute or successor rate or the use of the Last Permitted Rate would not produce a commercially reasonable result, a substitute or successor rate that it determines is a commercially reasonable alternative to the Reference Rate, taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market). If such Reference Rate is determined as any such substituted or successor rate, the Relevant Agent may determine such other amendments to the Securities which it considers are necessary and/or appropriate in order to reflect the replacement of the Reference Rate with such substituted or successor rate.
- (c) If the Relevant Agent determines the Reference Rate in accordance with sub-paragraph (ii) above only, the Relevant Agent shall notify the Issuer of such determination made by it and the action that it proposes to take in respect of any such determination. The Issuer shall notify the Securityholders thereof as soon as reasonably practicable thereafter in accordance with General Condition 15 (*Notices*). Failure by the Relevant Agent to notify the Issuer or failure by the Issuer to notify the Securityholders of any such determination will not affect the validity of any such determination.

### 9.3 Certain Defined Terms

For the purposes of the above:

"**Adjustment Spread**" means the adjustment, if any, to a Replacement Reference Rate that the Relevant Agent determines is required in order to reduce any transfer of economic value from (i) the Issuer to the Securityholders or (ii) the Securityholders to the Issuer, in each case that would otherwise arise as a result of the replacement of the Reference Rate with the Replacement Reference Rate. Any such adjustment may be an adjustment spread that would be applied for over-the-counter derivatives transactions referencing the relevant Reference Rate in relation to the occurrence of an index cessation event or administrator/benchmark event in respect of such Reference Rate (howsoever described under the terms of the relevant transaction) and/or take account of, without limitation, any anticipated transfer of economic value as a result of any difference in the term structure or tenor of the Replacement Reference Rate by comparison to the Reference Rate. The Adjustment Spread may be positive, negative or zero and/or determined pursuant to a formula or methodology.

"**Corresponding Tenor**" with respect to a Replacement Reference Rate means a tenor (including overnight) having approximately the same length (disregarding business day adjustment) as the applicable tenor for the then-current Reference Rate.

"**Interpolated Reference Rate**" with respect to the Reference Rate means the rate determined for the Corresponding Tenor by interpolating on a linear basis between: (1) the Reference Rate for the longest period for which the Reference Rate is available that is shorter than the Corresponding Tenor and (2) the Reference Rate for the shortest period for which the Reference Rate is available that is longer than the Corresponding Tenor.

**"Pre-nominated Replacement Reference Rate** means, in respect of the relevant Reference Rate, the first of the indices, benchmarks or other price sources or rates specified in the applicable Issue Terms that is not subject to a Reference Rate Event.

**"Reference Rate Event"** means:

- (i) the Relevant Agent determines that (A) a material change in the relevant Reference Rate has occurred or will occur, or (B) the permanent or indefinite cancellation or cessation in the provision of such Reference Rate has occurred or will occur and there is no successor administrator or provider that will continue to provide the Reference Rate, or (C) a regulator or other official sector entity has prohibited or will prohibit the use of or it is otherwise not permitted to use such Reference Rate in respect of the Securities or any related hedging arrangements in respect of the Securities which are derivative transactions referencing the relevant Reference Rate;
- (ii) the Relevant Agent determines that any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the relevant Reference Rate or the administrator or sponsor of the relevant Reference Rate has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the Issuer or the Relevant Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Reference Rate to perform its or their respective obligations under the Securities;
- (iii) save where the applicable Issue Terms specify that "Reference Rate Event (Limb (iii))" is not applicable, the Relevant Agent determines that it is not commercially reasonable to continue the use of the relevant Reference Rate in connection with the Securities as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant licence (including, without limitation, where the Issuer, the Relevant Agent or any other entity is required to hold a valid licence in order to issue or perform its obligations in respect of the Securities and for any reason such licence is either not obtained, not renewed or is revoked or there is a material change in the cost of obtaining or renewing such licence);
- (iv) the Relevant Agent determines that there has been a public statement or publication of information by the administrator or sponsor of the relevant Reference Rate, any national, regional or other supervisory or regulatory authority which is responsible for either (a) supervising the administrator or sponsor of the Reference Rate or (b) regulating the Reference Rate, the central bank for the currency of the Reference Rate or another official body with applicable responsibility announcing that such Reference Rate is no longer, or as of a specified future date will no longer be representative, of any underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored; or
- (v) the relevant Reference Rate is the subject of any market-wide development in the over-the-counter derivatives market (which may be in the form of a protocol, publication of standard terms or otherwise by ISDA) pursuant to which such Reference Rate is or will be replaced with a replacement rate with respect to over-the-counter derivatives transactions which reference such Reference Rate.

**"Relevant Nominating Body"** means, in respect of a Reference Rate: (i) the central bank for the currency in which the Reference Rate is denominated or any central bank or other supervisor which is responsible for supervising either the Reference Rate or the administrator of the Reference Rate; or (ii) any working group or committee officially endorsed or convened by (a) the central bank for the currency in which the Reference Rate is denominated, (b) any central bank or other supervisor which is responsible for supervising either the Reference Rate or the administrator of the Reference Rate, (c) a group of those central banks or other supervisors, or (d) the Financial Stability Board or any part thereof.

**"Replacement Reference Rate"** means, in respect of a Reference Rate, an index, benchmark or other price source or rate that the Relevant Agent determines to be a commercially reasonable alternative for such Reference Rate, PROVIDED THAT the Replacement Reference Rate must be any one of the following:

- (i) where applicable, the Interpolated Reference Rate with respect to the then-current Reference Rate;
- (ii) a Pre-nominated Replacement Reference Rate;
- (iii) an index, benchmark, other price source or rate or fall-back rate or methodology for calculating an index, benchmark, other price source, rate or fall-back rate (which may be formally designated, nominated or recommended by (a) any Relevant Nominating Body, (b) the administrator or sponsor of the Reference Rate or (c) ISDA or any other relevant trade association, working group, task-force or committee to replace the Reference Rate) which is recognised or acknowledged as being an industry standard replacement for over-the-counter derivative transactions which reference such Reference Rate (which recognition or acknowledgment may be in the form of (a) a publication by the relevant trade association, working group, task-force or committee, or (b) a press release, a member announcement, member advice, letter, protocol, publication of standard terms or otherwise by ISDA); or
- (iv) an index, benchmark, other price source, rate or fallback (which may include, without limitation, the arithmetic mean of quotations provided by reference banks selected by the Relevant Agent or a rate calculated by the Relevant Agent in accordance with a methodology determined by the Relevant Agent) that the Relevant Agent determines to be a commercially reasonable alternative for the Reference Rate.

## 10. Hierarchy Provisions and Adjustments

In relation to any event or circumstance affecting an interest rate, the fallback provisions described below must be applied in the order shown below, in each case where applicable for the relevant interest rate and the event or circumstance. If the first applicable option shown does not apply to the relevant interest rate and the relevant event or circumstance then the next option set out below which does should be applied. Without limitation, the fallback provisions below may be applied in accordance with their terms in relation to any relevant interest rate which itself has been previously determined pursuant to these fallback provisions. For the avoidance of doubt, the provisions set out in Valuation and Settlement Condition 3 (*Redemption or adjustment for an Administrator/Benchmark Event*) shall apply in accordance with Valuation and Settlement Condition 10.2 (*Redemption or adjustment for an Administrator/Benchmark Event*) to a Benchmark (whether such Benchmark is an interest rate or otherwise).

### 10.1 Reference Rate Event Provisions

The Reference Rate Event Provisions set out in Valuation and Settlement Condition 9 (*Reference Rate Event Provisions*) shall apply where the applicable Issue Terms specifies any Reference Rate to be applicable in respect of the Securities.

For the purposes hereof and of the Reference Rate Event Provisions and notwithstanding anything to the contrary in the Conditions:

**"Reference Rate"** means any interest rate (in each case howsoever described in the Conditions and as amended from time to time pursuant to the provisions of the Reference Rate Event Provisions) and any rate defined or specified as a "Reference Rate" in the Valuation and Settlement Conditions or the applicable Issue Terms (as amended from time to time pursuant to the provisions of the Reference Rate Event Provisions), which may include, without limitation, (i) any floating rate determined by reference to (a) Screen Rate Determination, (b) ISDA Determination, (c) SONIA Floating Rate Determination, (d) SOFR Floating Rate Determination, €STR Floating Rate Determination or (f) SARON Floating Rate Determination, (ii) any swap rate, (iii) any Underlying which is a Rate, (iv) a CMS Interest Rate, or (v) a CMS Reference Rate and, in each case will, where appropriate and without limitation, include any

related component or underlying rate (including, for the purposes of the 2021 Definitions any Underlying Benchmark, as defined therein), tenor or index rate. Where more than one Reference Rate is applicable in respect of the Securities, "Reference Rate" shall be construed to refer to each such Reference Rate. Where a Reference Rate applies in respect of any relevant period or day as specified in the applicable Issue Terms, "Reference Rate" shall be construed to refer to such Reference Rate in respect of the relevant period or day as specified in the applicable Issue Terms.

#### **10.2 Redemption or adjustment for an Administrator/Benchmark Event**

The provisions set out in Valuation and Settlement Condition 3 (*Redemption or adjustment for an Administrator/Benchmark Event*) shall apply where the applicable Issue Terms specifies any Benchmark (as defined in Valuation and Settlement Condition 3) to be applicable in respect of the Securities, PROVIDED THAT the Reference Rate Event Provisions set out in Valuation and Settlement Condition 9 (*Reference Rate Event Provisions*) do not apply to the relevant Benchmark as a result of the relevant event or circumstance.

#### **10.3 Rate Conditions**

The provisions in respect of an Underlying which is a Rate set out in Underlying Schedule 13 relating to the determination of the Underlying Closing Level of a Rate on any Scheduled Trading Day in the event of the occurrence of any Disrupted Day and the provisions relating to the consequences of any such Disrupted Day set out in the Conditions (the "**Underlying Rate Fallback Provisions**") shall apply to any such Underlying, PROVIDED THAT neither the Reference Rate Event Provisions set out in Valuation and Settlement Condition 9 (*Reference Rate Event Provisions*) nor the provisions set out in Valuation and Settlement Condition 3 (*Redemption or adjustment for an Administrator/Benchmark Event*) apply to the relevant rate as a result of the relevant event or circumstance.

#### **10.4 Screen Rate Determination and ISDA Determination**

The provisions relating to the determination of relevant floating rates set out in the SRD Fallback Provisions in Valuation and Settlement Condition 4.2(a) and the ISDA Determination provisions in Valuation and Settlement Condition 4.2(b) shall apply where Screen Rate Determination and/or ISDA Determination (respectively) are specified as applicable in the applicable Issue Terms, PROVIDED THAT none of the Reference Rate Event Provisions set out in Valuation and Settlement Condition 9 (*Reference Rate Event Provisions*), the provisions set out in Valuation and Settlement Condition 3 (*Redemption or adjustment for an Administrator/Benchmark Event*) and the Rate Conditions apply to the relevant floating rate as a result of the relevant event or circumstance.

#### **10.5 SONIA Floating Rate Determination, SOFR Floating Rate Determination, €STR Floating Rate Determination and SARON Floating Rate Determination**

The provisions relating to the determination of relevant floating rates set out in the SFRD (Non-Index) Fallback Provisions in Valuation and Settlement Condition 4.2(c)(i) (*Compounded Daily SONIA – Non-Index Determination*), the SFRD (Index) Fallback Provisions in Valuation and Settlement Condition 4.2(c)(ii) (*Compounded Daily SONIA – Index Determination*), the SOFR Fallback Provisions in Valuation and Settlement Condition 4.2(d)(iii) (*SOFR Floating Rate Determination – Non-availability*), the €STR Fallback Provisions in Valuation and Settlement Condition 4.2(e)(ii) (*€STR Floating Rate Determination – Non-availability*) and SARON Fallback Provisions in Valuation and Settlement Condition 4.2(f)(ii) (*SARON Floating Rate Determination – Non-availability*) shall apply where SONIA Floating Rate Determination, SOFR Floating Rate Determination, €STR Floating Rate Determination or (f) SARON Floating Rate Determination are specified as applicable in the applicable Issue Terms, PROVIDED THAT none of the Reference Rate Event Provisions set out in Valuation and Settlement Condition 9 (*Reference Rate Event Provisions*), the provisions set out in Valuation and Settlement Condition 3 (*Redemption or adjustment for an Administrator/Benchmark Event*) and the Rate Conditions apply to the relevant floating rate as a result of the relevant event or circumstance.

## 10.6 Adjustments

Any adjustments to the Conditions (including the determination of any adjustment spread or factor, however defined) which the Relevant Agent determines are necessary or appropriate pursuant to the provisions of the Reference Rate Event Provisions set out in Valuation and Settlement Condition 9 (*Reference Rate Event Provisions*) and the provisions set out in Valuation and Settlement Condition 3 (*Redemption or adjustment for an Administrator/Benchmark Event*):

- (a) shall be made to the extent reasonably practicable, but also taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market);
- (b) may include, where applicable and without limitation, (i) technical, administrative or operational changes (including without limitation, changes to determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction of any time delay or lag between the calculation or observation period of a rate and the related payment dates and other administrative matters) that the Relevant Agent decides are appropriate, (ii) the application of any adjustment factor or adjustment spread (whether or not expressly referenced in the relevant provision and which may be positive or negative) and (iii) (subject to compliance with applicable laws and/or regulatory guidance in the relevant jurisdiction) adjustments to reflect any increased costs to the Issuer of providing exposure to the replacement or successor rate(s) and/or benchmark(s); and
- (c) may be applied on more than one occasion, may be made as of one or more effective dates, may but does not have to involve the selection of a successor or replacement rate which is determined on a backwards-looking compounding basis by reference to a "risk-free rate" and which, unless the context otherwise requires or it is inappropriate, will be the relevant rate in relation to the then current and all future determination days.

Notwithstanding the provisions of (and all provisions referred to in) this Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*), the Relevant Agent is not obliged to make any adjustment or make any determination in relation to the Conditions if the effective date(s) of the relevant adjustment or determination would fall after the earlier of (i) the date the affected interest rate or Benchmark is no longer used as an interest rate or Benchmark for purposes of the Securities and (ii) the maturity, termination or expiry of the Securities.

Notwithstanding anything to the contrary in the provisions of (and all provisions referred to in) this Valuation and Settlement Condition 10 (*Hierarchy Provisions and Adjustments*), the Issuer and/or the Relevant Agent may make all determinations and/or adjustments and take all actions in respect of the Securities as are provided for in connection with a Benchmark Transition Event, Reference Rate Event, Administrator/Benchmark Event, or the occurrence of an event that causes the provisions in respect of relevant Underlyings which are Rates set out in Underlying Schedule 13 to apply (a "**Substitute or Successor Rate Event**"), as applicable, notwithstanding that such Benchmark Transition Event, Reference Rate Event, Administrator/Benchmark Event or Substitute or Successor Rate Event, as applicable, may have occurred before the Issue Date of the Securities.

## 10.7 No duty to monitor

In relation to any relevant rate and for the purposes of applying the provisions referred to in any of the paragraphs 10.1 to 10.6 above, inclusive, neither the Issuer nor the Relevant Agent will have any duty to monitor or enquire as to whether any relevant event or circumstance in respect of any such rate has occurred to which such provisions might apply.

## 10.8 Regulatory obligations

If (a) it is or would be unlawful or prohibited under any applicable law or regulation to determine and calculate a replacement interest rate or make any other determination or adjustment in accordance with the Reference Rate Event Provisions set out in Valuation and Settlement

Condition 9 (*Reference Rate Event Provisions*), the Underlying Rate Fallback Provisions set out in Underlying Schedule 13, the provisions set out in Valuation and Settlement Condition 3 (*Redemption or adjustment for an Administrator/Benchmark Event*), the SRD Fallback Provisions in Valuation and Settlement Condition 4.2(a) (*Screen Rate Determination*), the ISDA Determination provisions in Valuation and Settlement Condition 4.2(b) (*ISDA Determination*), the SFRD (Non-Index) Fallback Provisions in Valuation and Settlement Condition 4.2(c)(i) (*Compounded Daily SONIA – Non-Index Determination*) or the SFRD (Index) Fallback Provisions in Valuation and Settlement Condition 4.2(c)(ii) (*Compounded Daily SONIA – Index Determination*), the SOFR Fallback Provisions in Valuation and Settlement Condition 4.2(d)(iii) (*SOFR Floating Rate Determination – Non-availability*), the €STR Fallback Provisions in Valuation and Settlement Condition 4.2(e) (*€STR Floating Rate Determination – Non-availability*) and SARON Fallback Provisions in Valuation and Settlement Condition 4.2(f)(ii) (*SARON Floating Rate Determination – Non-availability*), (each a "**Reference Rate Fallback Provision**") (or it would be unlawful were a determination to be made at that time); or (b) it would contravene any applicable licensing requirements to determine a replacement interest rate or make any other determination or adjustment in accordance with any applicable Reference Rate Fallback Provision (or it would contravene those licensing requirements were a determination to be made at that time); or (c) the Relevant Agent determines that an adjustment spread (however described in the Reference Rate Fallback Provisions) is or would be a benchmark, index or other price source whose production, publication, methodology or governance would subject the Relevant Agent to material additional regulatory obligations which it is unwilling to undertake, then the Relevant Agent shall not be obliged to make the relevant determination or adjustment and may instead take any alternative action under the Conditions as it determines appropriate.

## 11. Split Payment Conditions

This Valuation and Settlement Condition 11 shall apply where the applicable Issue Terms specify Split Payment Conditions to be applicable in respect of the Securities.

- (i) if CRE Redemption Amount is specified to be applicable in the applicable Issue Terms and the CRE Redemption Amount is payable on the relevant CRE Redemption Date falling after such Mandatory Early Redemption Date; and/or
- (ii) if an Interest Amount and/or Non-Contingent Interest Amount is specified in the applicable Issue Terms and the Interest Amount and/or Non-Contingent Interest Amount (as applicable) is payable on the relevant Interest Payment Date and/or Non-Contingent Interest Amount Payment Date (as applicable) falling after such Mandatory Early Redemption Date.

- (B) the Valuation Date for each Underlying for which such Specified Valuation Date is not a Scheduled Trading Day shall be the first succeeding day immediately following such Specified Valuation Date which is a Scheduled Trading Day for such affected Underlying, unless in the opinion of the Calculation Agent such day is a Disrupted Day for such Underlying, in which case Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) below or Valuation and Settlement Condition 1(f) (*Adjustment to Valuation Dates (Disrupted Days and Underlying Levels)*) below and/or Valuation and Settlement Condition 1(g) (*Averaging Dates*) below (as applicable) shall apply or, as the case may be, the provisions relating to adjustment to Valuation Dates for Disrupted Days set out in the Underlying Schedules applicable to the relevant Underlying(s), shall apply.

- (d) *Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*

Subject as provided in the Underlying Schedules applicable to the relevant Underlying(s) and subject as provided in Valuation and Settlement Condition 1(g) (*Averaging Dates*) below, any Specified Valuation Date(s) (if applicable, as adjusted in accordance with the provisions of Valuation and Settlement Condition 1(c) (*Adjustments to Valuation Dates (Scheduled Trading Days)*) above and/or, as the case may be, the provisions of the Underlying Schedules applicable to the relevant Underlying(s)) shall be adjusted in accordance with the following provisions:

- (i) The following sub-paragraph shall apply to Warrants linked to one Underlying, subject as provided in Valuation and Settlement Condition 1(d)(iv) below.

If such Specified Valuation Date for such Underlying is a Disrupted Day for such Underlying, then the Valuation Date shall be the earlier of: (I) the first succeeding Valid Date immediately following such Specified Valuation Date; and (II) the Scheduled Trading Day which is the Valuation Roll number of Scheduled Trading Days immediately following such Specified Valuation Date.

- (ii) The following sub-paragraph shall apply to Warrants linked to more than one Underlying if "Move In Block" is specified in the applicable Issue Terms, subject as provided in Valuation and Settlement Condition 1(d)(iv) below.

If such Specified Valuation Date is a Disrupted Day for any Underlying, then such Valuation Date shall be the earlier of: (I) the first succeeding Valid Date immediately following such Specified Valuation Date; and (II) the Scheduled Trading Day for all the Underlyings which is the Valuation Roll number of Scheduled Trading Days for all the Underlyings immediately following such Specified Valuation Date.

- (iii) The following sub-paragraph shall apply to Warrants linked to more than one Underlying if "Value What You Can" is specified in the applicable Issue Terms, subject as provided in Valuation and Settlement Condition 1(d)(iv) below.

If such Specified Valuation Date is a Disrupted Day for any Underlying, then:

- (A) if such Specified Valuation Date is not a Disrupted Day for an Underlying, then the Valuation Date for such Underlying shall be such Specified Valuation Date; and
  - (B) if such Specified Valuation Date is a Disrupted Day for an Underlying, then the Valuation Date for such Underlying shall be the earlier of: (1) the first succeeding Valid Date immediately following such Specified Valuation Date; and (2) the Scheduled Trading Day which is the Valuation Roll number of Scheduled Trading Days for such Underlying immediately following such Specified Valuation Date.
- (iv) If the Valuation Date for any Underlying determined as provided above would otherwise fall on a day falling after the second Scheduled Trading Day (the Cut-off Valuation Date) for such Underlying prior to the date on which a relevant payment or delivery, as applicable, is scheduled to be made under the Warrants, such Valuation Date shall be deemed to be the Cut-off Valuation Date (notwithstanding that such date is a Disrupted Day for such Underlying) and the provisions of Valuation and Settlement Condition 1(e)(ii) below shall apply in respect thereof.
- (e) *Adjustments to Valuation Dates (Calculation Agent's determination of Underlying Closing Levels)*
    - (i) If the Valuation Date for any Underlying (as determined in accordance with Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) above) is a Disrupted Day for such Underlying, then (unless otherwise specified in the Underlying Schedule applicable to such Underlying) the Calculation Agent shall determine the Underlying Closing Level of such Underlying on such Valuation Date using its good faith estimate of the Underlying Closing Level of such Underlying at the Valuation Time (where relevant) on or for such day.
    - (ii) If the Valuation Date for any Underlying (as determined in accordance with Valuation and Settlement Condition 1(d)(iv) above) is determined to occur on the Cut-off Valuation Date for such Underlying, then (unless otherwise specified in the Underlying Schedule applicable to such Underlying) the Calculation Agent shall determine the Underlying Closing Level of such Underlying on such Cut-off Valuation Date using its good faith estimate of the Underlying Closing Level of such Underlying at the Valuation Time (where relevant) on or for such day.

- (f) *Adjustment to Valuation Dates (Disrupted Days and Underlying Levels)*

If the Calculation Agent determines that the Underlying Level of an Underlying cannot be determined at any time on any Valuation Date by reason of the occurrence of an event giving rise to a Disrupted Day, then the Underlying Level at such time on such

day shall be disregarded for the purposes of determining any amounts payable and/or deliverable in respect of the Warrants.

(g) *Averaging Dates*

Where "Averaging" is specified to apply in the applicable Issue Terms to the Valuation Dates in respect of any Actual Exercise Date, the applicable Issue Terms will specify whether "Postponement", "Modified Postponement" or "Omission" will apply in respect of each Averaging Date or, if no such election is specified, "Postponement" shall apply.

Notwithstanding the provisions of Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*), where "Omission" applies in respect of any Averaging Date, if a Specified Valuation Date is a Disrupted Day for any Underlying, then such Specified Valuation Date shall be deemed not to be a Valuation Date PROVIDED THAT, if by operation of this provision there would be no Valuation Date in respect of the relevant Actual Exercise Date, then the provisions of Valuation and Settlement Condition 1(d) (*Adjustments to Valuation Dates (Disrupted Days and Underlying Closing Levels)*) will apply for the purposes of determining the relevant Underlying Closing Level(s) on the final Valuation Date with respect to that Actual Exercise Date as if such Valuation Date were a Valuation Date that was a Disrupted Day.

(h) *Adjustment Events*

If in the determination of the Calculation Agent any Adjustment Event occurs, then (subject to the provisions of the Underlying Schedule applicable to such Underlying) the Calculation Agent shall (i) make such adjustment to the terms of the Warrants as the Calculation Agent determines necessary or appropriate to account for the effect of such Adjustment Event subject to the provisions (if any) of such Underlying Schedule and (ii) determine the effective date of each such adjustment.

Any adjustment pursuant to the above may include the issue of additional Warrants (if so specified in the applicable Issue Terms) or a "monetisation" of the Warrants. Where the Warrants are monetised, (i) the Calculation Agent will determine the value in the Settlement Currency (the "**Monetised Amount**") of the bond component and the embedded derivative(s) comprising the Warrants on a date selected by the Calculation Agent (the "**Monetisation Valuation Date**"), (ii) any future amounts in respect of interest (if any) and the Final Redemption Amount will no longer be payable and (iii) the Warrants will instead pay on the Maturity Date an amount equal to (a) the Monetised Amount plus (b) interest accrued on such amount at the overnight rate relating to the Settlement Currency selected by the Calculation Agent which shall accrue during the period from (and including) the Monetisation Valuation Date to (but excluding) the Maturity Date.

If an "Increased Cost of Hedging" is specified to apply in the applicable Issue Terms and occurs, the Calculation Agent may make such adjustment to the terms of the Warrants as it determines necessary or appropriate to pass on to Warrantholders the relevant increased cost of hedging, which adjustment may include, but is not limited to, reducing any of the amounts which would otherwise be payable under the Warrants or reducing the number of any Relevant Assets which would otherwise be deliverable under the Warrants.

If so specified in the relevant Underlying Schedule, any adjustment(s) made by the Calculation Agent in response to an Adjustment Event may include a substitution of the relevant Underlying or other asset as specified in the Underlying Schedule applicable to the relevant Underlying and the Calculation Agent may make such other adjustments to the terms of the Warrants as it deems necessary or appropriate in relation to such substitution.

(i) *Early Termination Events*

If, in the determination of the Calculation Agent, any Early Termination Event occurs in respect of an Underlying or the Warrants (as relevant), then (i) in the case of an Additional Early Termination Event pursuant to paragraph (i) of the definition of such term (subject to the provisions of the Underlying Schedule applicable to such Underlying) the Issuer will or (ii) in the case of a Hedging Disruption Early Termination Event or a Section 871(m) Event, the Issuer may, cancel all (but not some only) of the Warrants on a day selected by the Issuer and the Issuer shall pay, in respect of each Warrant or, if Units are specified in the applicable Pricing Supplement, each Unit, as the case may be, an amount equal to the Early Termination Amount on the Early Termination Date.

(j) *Realisation Disruption*

If "Realisation Disruption" is specified as applicable in the applicable Issue Terms and a Realisation Disruption Event occurs, then the Issuer may either (i) direct the Calculation Agent to make such consequential adjustments to any of the terms of the Warrants (including any payment or delivery obligations) as it determines appropriate in order to reflect the economic effect of the particular Realisation Disruption Event or (ii) cancel all (but not some only) of the Warrants on a day selected by the Issuer and the Issuer shall pay, in respect of each Warrant, an amount equal to the Early Termination Amount on the Early Termination Date.

Any such adjustments by the Calculation Agent may include (but are not limited to) (I) payments under the Warrants being made in the currency (the "**Local Currency**") in which the Hedging Positions are denominated or payable rather than the Settlement Currency, (II) deduction of an amount equal to the applicable tax, charge or deduction from the relevant payment otherwise due under the relevant Warrants or delivery of any Entitlement being subject to payment by the relevant Warrantholder of an amount equal to a pro rata portion of any such tax, charge or deduction resulting in reduced amounts paid or delivered in respect of the Warrants, (III) non-payment of the relevant payment or non-delivery of the relevant Entitlement otherwise due under the relevant Warrants until the relevant restrictions (including but not limited to all exchange and/or conversion and/or cross-border transfer restrictions) are lifted and/or (IV) determination of any relevant exchange rate by the Calculation Agent taking into consideration all available information that it deems relevant, which may result in a different rate to that which would have applied had the Realisation Disruption not occurred, and/or (V) (where legally permissible) in lieu of paying any cash amounts in respect of the Warrants, procuring physical delivery of any Underlying(s), delivered in such manner as shall be notified to the Warrantholders by the Issuer (or vice versa) PROVIDED THAT such Underlying(s) may be subject to transfer restrictions and additional certifications may be required from the Warrantholders. Any such adjustments will be effective as of the date determined by the Calculation Agent.

(k) *Correction of published or announced prices or levels*

In the event that any level, price, rate or value (as applicable) of an Underlying for any time on any day which is published or announced by or on behalf of the person or entity responsible for such publication or announcement and which is used for any calculation or determination made in respect of the Warrants is subsequently corrected, and the correction (the "**Corrected Level**") is published by or on behalf of such person or entity within the relevant Correction Period after the original publication (and at least two Business Days prior to the relevant date on which a payment or delivery is scheduled to be made under the Warrants) (the "**Relevant Scheduled Payment Date**"), then such Corrected Level shall be deemed to be the level, price, rate or value for the relevant Underlying for the relevant time on the relevant day and the Calculation Agent shall use such Corrected Level in determining any amounts payable and/or deliverable in respect of the Warrants.

Corrections published after the day which is two Business Days prior to the Relevant Scheduled Payment Date shall be disregarded by the Calculation Agent for the purposes of determining any such amounts payable and/or deliverable under the Warrants.

(l) *Notifications*

The Calculation Agent shall notify the Issuer of any determination made by it in accordance with this Valuation and Settlement Condition 1 and the action that it proposes to take in respect of any such determination. The Issuer shall notify the Warrantholders thereof as soon as reasonably practicable thereafter in accordance with General Condition 11 (*Notices*). Failure by the Calculation Agent to notify the Issuer or failure by the Issuer to notify the Warrantholders of any such determination will not affect the validity of any such determination.

Where more than one Electronic Page is specified in respect of an Underlying and/or (if applicable) any component of such Underlying (however described in the relevant Underlying Schedule), then the provisions of the preceding sentence shall be construed accordingly and (i) if there is any discrepancy between any relevant price or level displayed on the relevant Electronic Pages for any Valuation Date, the relevant price or level selected by the Calculation Agent shall be used for such Valuation Date; and (ii) if any relevant price or level is not published on all of such Electronic Pages but is published on one or more of such Electronic Pages, the Calculation Agent shall use such published price or level for the purpose of determining any calculation or determination in respect of the Warrants and no Disrupted Day shall be deemed to have occurred in respect of the failure to publish on the other Electronic Page(s).

The Mandatory Early Termination provisions in the General Conditions apply and for such purpose:

**"Mandatory Early Termination Amount"** means either the Final Settlement Amount or the Entitlement, as is specified to Warranholders in the notice given to them in accordance with the Conditions, as the Issuer shall determine if the Certificates that are cancelled following a Mandatory Early Termination Event are either Cash Settled Certificates or Physical Delivery Certificates. For the purpose of determining the amount due or assets deliverable on a Mandatory Early Termination Date, the date specified in the notice given to Warranholders or, if none, the date on which the Issuer gives notice to Warranholders, will be deemed to be the Actual Exercise Date.

**"Mandatory Early Termination Event"** means the determination by the Issuer at any time from and including the Issue Date to and

including the Expiration Date to cancel all or some only of the outstanding Certificates.

"**Mandatory Early Termination Date**" means such date as is specified to Warranholders in the notice given to them in accordance with the Conditions specifying that a Mandatory Early Termination Event has occurred and such notice shall also specify the applicable Termination Cut-off Date for the purpose of the Conditions.

(B) Partial Termination

A Mandatory Early Termination Event may relate to all or some only of the Certificates. The Issuer will notify Warranholders of the number of Certificates to be cancelled on the relevant Mandatory Early Termination Date in the notice given to them in accordance with the Conditions. In the event that the Issuer exercises its right to cancel some only of the outstanding Certificates, the Certificates to be cancelled will be selected in accordance with the standard procedures of Euroclear and/or Clearstream, Luxembourg.

(C) Exercise by Warranholders of Certificates the subject of a Mandatory Early Termination Event

In the event that a Mandatory Early Termination Event occurs in respect of a Certificate, but on or before two Business Days prior to the relevant Mandatory Early Termination Date, an Exercise Notice is deemed by the Issuer to be delivered in accordance with General Condition 6 (*Exercise and termination procedure*) in respect of such Certificate, then such Certificate will not be cancelled on the Mandatory Early Termination Date but will instead be settled as an exercise by the Warranholder as otherwise provided herein.

(d) *Saudi Participation Certificates*

If the Certificates are specified in the applicable Pricing Supplement to be Saudi Participation Certificates, the following shall apply:

(i) Adjustment Provisions

(A) Increased Cost of Hedging

The definition of "Increased Cost of Hedging" set out in Valuation and Settlement Condition 1(m) (*Definitions*) shall be amended as follows by the deletion of sub-paragraphs (i) and (ii) thereof and the substitution of the words "conduct its Hedging" therefor.

(B) Consequences of Adjustment Events

The following shall be inserted at the end of Valuation and Settlement Condition 1(h) (*Adjustment Events*):

"In relation to an adjustment made by the Calculation Agent pursuant to Valuation and Settlement Condition 1(m) (*Definitions*), in its determination of the occurrence of any Adjustment Event or any related adjustments to the terms of the Certificates, the Calculation Agent shall take into account any amounts of Local Taxes that would be withheld from or paid by or otherwise incurred by a Hypothetical Investor as determined by the Calculation Agent, in connection with the relevant Adjustment Event.

In the event that any adjustment made (or not made) by the Calculation Agent to the terms of the Certificates on the basis of assumptions regarding deliveries of securities or payments from the Share Company or to or by a Hypothetical Investor as determined by the Calculation Agent, which subsequently turns out to be incorrect, then the Calculation Agent may determine the necessary adjustments to any term of the Certificates (including, without limitation, adjusting the amount of any future payments) to correct the result of such incorrect assumption and the Issuer shall give notice as soon as practicable to the Warrantholders in accordance with General Condition 11 (*Notices*). Any such adjustment shall take effect on the date as specified in such notice."

(C) Corrections

The reference to the "Relevant Scheduled Payment Date" in Valuation and Settlement Condition 1(k) (*Correction of published or announced prices or levels*) shall be deemed to be a reference to each "Settlement Date" and the "Final Settlement Date", as applicable.

(D) Realisation Disruption

The definitions of "Hedging Party", "Hedging Position" and "Realisation Disruption Event" set out in Valuation and Settlement Condition 1(m) (*Definitions*) shall be deleted and the definitions of "Hedging Party" and "Hedging Position" in this Valuation and Settlement Condition 6 (*Participation Certificate Provisions*) and the following definitions of "Realisation Disruption Event" and "Hedging" shall be substituted therefor:

**"Realisation Disruption Event** means that any Hedging Party is unable, after using commercially reasonable efforts, to conduct its Hedging (as defined below) or suffers any material delay in conducting its Hedging (PROVIDED THAT any such inability or delay did not already apply on the Trade Date)."

**"Hedging"** means to:

- (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) the Issuer and/or any of its Affiliates and/or any Hedging Party deems necessary to hedge, in a commercially reasonable manner, the equity price risk or any other relevant price risk (including, but not limited to, any currency risk) of entering into and performing its obligations with respect to the Certificates and/or any Hedging Positions; or

- (A) none of the Issuer, the CGMFL Guarantor (where the Issuer is CGMFL) and any Certificateholder shall acquire any interest in (including, without limitation, voting rights) or right to acquire or dispose of any underlying Shares by virtue of the issue or purchase of a Certificate, as applicable;
- (B) neither the Issuer nor any Certificateholder is obliged to sell, purchase, hold, deliver or receive any underlying Shares or to act in any specific manner in respect of any corporate action relating to any underlying Share; and
- (C) the primary right and obligation of the Issuer, the CGMFL Guarantor (where the Issuer is CGMFL) and Warrantholders is to receive and/or make the respective payments of cash thereunder, as applicable.

(e) *APAC Participation Certificates*

If the Certificates are specified in the applicable Pricing Supplement to be APAC Participation Certificates, the following shall apply:

(i) Dividends

The Issuer shall pay or procure the payment of any Dividend Amount in relation to each Certificate, such payment to be made to the Certificateholder, if the Certificateholder would have received such Dividend Amount following a sale of Shares executed on the Business Day preceding the Ex-Date (as if such Certificateholder had been the buyer in such sale) notwithstanding that such person may not be the holder of the Certificate as of the relevant Settlement Date.

As soon as practicable after the occurrence of an Ex-Date, the Issuer shall give notice to the Warrantholders in accordance with General Condition 11 (*Notices*) and to the Principal Warrant Agent stating the occurrence of the Ex-Date, giving details thereof and setting out the method and anticipated date of payment of the relevant Dividend Amount. The Calculation Agent shall determine the person(s) to whom any Dividend Amount should be paid.

For the avoidance of doubt, where the Certificates are Physical Delivery Certificates, the provisions of the penultimate paragraph of General Condition 5(c)(ii) (*Physical Delivery*) shall apply to dividends (as defined in General Condition 5(c)(ii) (*Physical Delivery*)) payable in respect of the Shares from and including the Actual Exercise Date for such Certificates.

## (ii) Adjustment Provisions – Stock Dividends and Rights Issues

In the event that a stock dividend or dividend in the form of Shares (a "**Stock Dividend**") in respect of the Shares is declared by the Share Company during the period from and including the Issue Date to but excluding the Expiration Date, in lieu of making an adjustment to the Certificates, the Issuer may issue an amount of further Certificates (the "**Further Certificates**") to the Certificateholder, if the Certificateholder would have received such Stock Dividend following a sale of Shares executed on the Business Day preceding the date of declaration of such Stock Dividend (if such Certificateholder had been the buyer in such sale) to reflect the issue of the Stock Dividend (as adjusted for any Taxes, charges or expenses which the Calculation Agent determines would be or would have been, withheld or payable in the Share Currency in relation to or by or on behalf of a resident foreign investor, had such foreign investor received such Stock Dividend) notwithstanding that such person may not be the holder of the Certificate as of the date on which the Further Certificates are issued. Further Certificates issued pursuant to this paragraph may be issued to the Warrantheolders free of charge or at an issue price as determined by the Calculation Agent.

In addition, in the event that a rights issue (a "**Rights Issue**") in respect of the Shares is declared by the Share Company during the period from and including the Issue Date to but excluding the Expiration Date, in lieu of making an adjustment to the Certificates, the Issuer may issue an amount of Further Certificates to the Certificateholder, if such Certificateholder would have received such Rights Issue following a sale of Shares executed on the Business Day preceding the date of declaration of such Rights Issue (if such Certificateholder had been the buyer in such sale) to reflect the Rights Issue (as adjusted for any Taxes, charges or expenses which the Calculation Agent determines would be or would have been, withheld or payable in the Local Jurisdiction (Share) in relation to or by or on behalf of a resident foreign investor had such foreign investor received such Rights Issue) notwithstanding that such person may not be the holder of the Certificate as of the date on which the Further Certificates are issued. Further Certificates issued pursuant to this paragraph may be issued to the Warrantheolders at an issue price as determined by the Calculation Agent.

The Issuer may issue the Further Certificates, if any, to the relevant person five Business Days following the day on which a foreign investor would have received the relevant Stock Dividends or Shares upon exercise of the Rights Issue or such later date as the Calculation Agent shall determine. The Calculation Agent shall determine the persons to whom the Further Certificates should be issued.

If the Certificateholder holds more than one Certificate, the number of Certificates held by such Certificateholder may be aggregated for the purposes of determining the number of Further Certificates to be issued to such Certificateholder pursuant to the above.

In the event that any Further Certificates are to be issued at an issue price, no Certificateholder will be obligated to purchase such Further Certificates but if such Further Certificates are not purchased pursuant to the relevant terms of offer, none of the Issuer and the CGMFL Guarantor shall have any further obligations to the relevant Certificateholder in respect of such Stock Dividend or Rights Issue, as the case may be.

Upon the declaration of a Stock Dividend or a Rights Issue by the Share Company and the election by the Issuer to issue Further Certificates, the Issuer shall give notice as soon as practicable to the Warrantheolders in accordance with General Condition 11 (*Notices*) stating the declaration of the

Stock Dividend or the Rights Issue, the election by the Issuer to issue Further Certificates and giving details thereof.

(iii) Underlying RMB Disruption Event

Where "Underlying RMB Disruption Event" is specified as applicable in the applicable Pricing Supplement, upon the occurrence of an Underlying RMB Disruption Event, the Issuer may determine one or more of the following actions:

- (B) by giving notice to the Certificateholder(s) in accordance with General Condition 11 (*Notices*), cancel the Certificates. If the Certificates are so cancelled, the Issuer will pay to each Certificateholder in respect of each Certificate held by such holder, an amount equal to the Early Termination Amount.

Upon the occurrence of an Underlying RMB Disruption Event, the Issuer shall give notice, as soon as practicable, to the holder(s) stating the occurrence of the Underlying RMB Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

Where Realisation Disruption and/or any Additional Disruption Event is specified as applicable in the applicable Pricing Supplement and an event occurs that could be a Realisation Disruption and/or an Additional Disruption Event or, alternatively, also be an Underlying RMB Disruption Event, the above Underlying RMB Disruption Event provisions will prevail.

"**Underlying RMB Non-Transferability**" means the occurrence of any event that makes it impossible, impracticable or illegal for the Issuer or (if applicable) any party to a Hedging Position and/or any of its Affiliates to deliver Renminbi between accounts inside any relevant Underlying RMB Settlement Centre(s) or from an account inside any relevant Underlying RMB Settlement Centre(s) to an account outside any relevant Underlying RMB Settlement Centre(s) (including where the RMB clearing and settlement system for participating banks in any relevant Underlying RMB Settlement Centre(s) is disrupted or suspended) or from an account outside any relevant Underlying RMB Settlement Centre(s) to an account inside any relevant Underlying RMB Settlement Centre(s), other than where such impossibility, impracticability or illegality is due solely to the failure of the relevant party and/or any of its Affiliates to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Trade Date of the first Tranche of this Series and it is impossible, impracticable or illegal for that party and/or any of its Affiliates, due to an event beyond the control of that party and/or any of its Affiliates (as applicable), to comply with such law, rule or regulation).

**"Average Share Price"** means the price per Share (less any Sale Costs) arising from the sale by the Calculation Agent of the Sold Shares and where the Sold Shares are sold, at the option of and in the manner determined by the Calculation Agent, in such numbers of the Shares and at such times on the date falling one Scheduled Trading Day after the date of the occurrence of the Debt Security Partial Compulsory Conversion or the Debt Security Compulsory

Conversion Event (the "**Debt Security Conversion Event Date**"),

PROVIDED THAT, the Calculation Agent shall have the discretion not to sell on the Exchange all or any of the Sold Shares on the Debt Security Conversion Event Date (for any reason) and those Shares comprising the Sold Shares not sold on the Debt Security Conversion Event Date shall be sold as soon thereafter as the Calculation Agent determines in its commercially reasonable judgement. The period of Scheduled Trading Days from and including the Debt Security Conversion Event Date to the Scheduled Trading Day on which all the Sold Shares have been sold shall be the "**Share Valuation Period**".

(D) Notification

Upon the occurrence of a Debt Security Early Redemption Event or an adjustment to the terms of the Debt Securities as provided in Valuation and Settlement Condition 6(f)(iii)(C) above, the Issuer shall give notice as soon as practicable to the Warrantholders in accordance with General Condition 11 (*Notices*) stating the occurrence of the Debt Security Early Redemption Event or material change, as the case may be, giving details thereof and the action proposed to be taken in relation thereto.

(iv) Credit Event Termination

In the event that a Credit Event occurs during the period from (and including) the Issue Date to (and including) the Expiration Date (the "**Certificate Term**") and the Calculation Agent delivers a Credit Event Notice and a Notice of Publicly Available Information to the Issuer, the Issuer may give notice (such notice a "**Certificateholder Credit Event Notice**") to the Warrantholders in accordance with General Condition 11 (*Notices*) and cancel the Certificates. If the Certificates are so cancelled, the Issuer will pay the Credit Event Amount in respect of each Certificate on the Credit Event Redemption Date. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with General Condition 11 (*Notices*).

For the avoidance of doubt, where the Issuer gives a Certificateholder Credit Event Notice as provided above, all Certificates in respect of which no Cash Settlement Amount has been paid will be cancelled, including those in respect of which an Exercise Notice has been given prior to the giving of the Certificateholder Credit Event Notice but in relation to which no Cash Settlement Amount has been paid.

*The Pricing Supplement relating to each issue of Warrants may contain (without limitation) such of the following information as is applicable in respect of such Warrants.*

**[PROHIBITION OF SALES TO EEA RETAIL INVESTORS** - [Other than with respect to offers of the Warrants in [specify jurisdiction(s)] for which an EU PRIIPs KID is being prepared] [during the period[s] [●]-[●] (repeat periods as necessary), [T]/[t]The Warrants are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended or superseded, "MiFID II"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "EU Prospectus Regulation"). Consequently[, save as provided above,] no key information document required by Regulation (EU) No 1286/2014 (as amended, the "EU PRIIPs Regulation") for offering or selling the Warrants or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Warrants or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.]

**[PROHIBITION OF SALES TO UK RETAIL INVESTORS** - [Other than with respect to offers of the Warrants in the United Kingdom for which a UK PRIIPs KID is being prepared] [during the period[s] [●]-[●] (repeat periods as necessary), [T]/[t]he Warrants are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "EUWA"); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (the "UK Prospectus Regulation"). Consequently[, save as provided above,] no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Warrants or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Warrants or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

The Base Listing Particulars referred to below (as completed by this Pricing Supplement) has been prepared on the basis that any offer of [Warrants/Certificates] in (i) any Member State of the European Economic Area will be made pursuant to an exemption under the EU Prospectus Regulation from the requirement to publish a prospectus for offers of the [Warrants/Certificates] and (ii) the United Kingdom ("UK") will be made pursuant to an exemption under the UK Prospectus Regulation from the requirement to publish a prospectus for offers of the [Warrants/Certificates]. Accordingly and subject as provided above, any person making or intending to make an offer in that Member State or the UK of [Warrants/Certificates] may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or section 85 of the Financial Services and Markets Act (as amended, the "FSMA"), as applicable, or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation or UK Prospectus Regulation, as applicable, in each case, in relation to such offer. None of the Issuer[, the CGMFL Guarantor] and any

For the purposes of the above paragraph, the expression "**EU Prospectus Regulation**" means Regulation (EU) 2017/1127 and "**UK Prospectus Regulation**" means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended).
